PROFESSIONAL EXPERIENCE

Software Engineer — HCL Technologies, Chennai, India

Sep 2021 – Jan 2025

- Prepared monthly management accounts and financial reports for enterprise clients, ensuring accuracy and timeliness within a 3-day close window.
- Supported budgeting and forecasting processes by consolidating data from multiple ERP modules and operational platforms, identifying variances up to **15%**.
- Performed detailed financial analysis and variance reporting, investigating discrepancies and providing insights to finance leadership for **3 core business units**.
- Reconciled balance sheet accounts, including key financial asset and liability accounts, and systematically investigated and resolved discrepancies, reducing aged items by **22%**.
- Assisted with year-end audit preparation, gathering supporting documentation and liaising with external auditors to ensure compliance with internal controls and financial regulations.
- Collaborated with cross-functional teams, including operations and business analysts, to support business decision-making through ad-hoc financial reporting and analysis.

SKILLS

Finance & Accounting – Financial Reporting, Management Accounts, Budgeting, Forecasting, Financial Analysis, Variance Reporting, Balance Sheet Reconciliation, Audit Preparation, Internal Controls, Financial Records Management

Core Finance Tools – Microsoft Excel, General IT Systems

Software Engineering & Data – Python, Java, SQL, Spring Boot, REST APIs, AWS, Docker, Linux, Git, Jenkins, PostgreSQL, MySQL, Oracle, Splunk, Dynatrace, pandas, NumPy, scikit-learn, Flask, FastAPI

Business Intelligence & Analytics – Power BI, Tableau, R / RStudio, DAX, Power Query, Data Modelling, Data Warehousing, Statistical Methods, Exploratory Data Analysis, A/B Testing, Time-Series Analysis, Machine Learning Fundamentals

Enterprise Systems – ERP Integration Support, Change Management, Payments Operations Dashboard, Transaction Monitoring, Reconciliation Workflows

PROJECTS

Financial Reporting Automation (HCL Technologies)

- Developed Python scripts to automate the extraction and consolidation of financial data from disparate sources, including ERP systems and operational databases.
- Built Power BI dashboards to visualize key financial metrics, management accounts, and variance analysis, providing stakeholders with actionable insights and reducing manual reporting time by **40%**.
- Implemented data validation checks and reconciliation workflows within the automation process to ensure the accuracy and integrity of financial records, catching approximately **1 in 10** initial data errors.

ERP System Integration & Support (HCL Technologies)

- Supported integration efforts between enterprise business systems and a core ERP module, facilitating data flows via REST APIs and direct database interactions across PostgreSQL and Oracle.
- Managed change-control processes for system configuration updates, coordinating User Acceptance Testing (UAT) and providing post-go-live support to ensure smooth transitions for interconnected systems.
- Authored detailed runbooks and documentation for system support, improving incident resolution times for common issues by an estimated **25%**.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin

Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India

2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
