## PROFESSIONAL EXPERIENCE

### Software Engineer — HCL Technologies, Chennai, India

Sep 2021 – Jan 2025

- Assisted senior engineers with **structured cabling installations** at enterprise customer sites, ensuring adherence to project specifications and quality standards.
- Supported the **configuration of on-premise and cloud-based phone systems**, including user setup and basic network integration tasks.
- Diagnosed and resolved **telecom and IT infrastructure faults** for business clients, both through remote support sessions and on-site visits.
- Developed **Python scripts** to automate routine reporting tasks for network performance metrics, reducing manual effort by approximately **15%**.
- Maintained clear and consistent **communication with customers** regarding service status and issue resolution, contributing to a positive client experience.
- Collaborated with internal operations teams to implement system updates and configuration changes, following established **change-control management** processes.

## SKILLS

**Telecoms & Networking** – Structured Cabling, Telephone Systems (PBX, Hosted), Network Fundamentals, Routers, LANs, IP Basics

**Software Engineering** – Java, Spring Boot, Python, REST APIs, Docker, Git, CI/CD, Jenkins

**Cloud & Infrastructure** – AWS (EC2, S3, Lambda, CloudWatch), Linux

**Data & Analytics** – SQL, PostgreSQL, MySQL, Oracle, Power BI, DAX, Power Query, R, Tableau

**Support & Operations** – Incident Response, Production Support, Monitoring (Splunk, Dynatrace), SLAs, Change Management, Jira

## PROJECTS

### Customer Site Installation Support (HCL Technologies)

- Assisted in the physical installation of **structured cabling** for new network infrastructure at a large enterprise client, ensuring correct termination and testing.
- Supported the deployment of **IP telephony systems**, including device provisioning and basic network configuration under senior engineer supervision.
- Documented installation procedures and site-specific notes, contributing to a knowledge base for future deployments and reducing onboarding time for new team members by **10%**.

### Network Automation and Monitoring Scripting (HCL Technologies)

- Developed **Python scripts** to automate the collection of network device logs and performance data from multiple client environments.
- Integrated script outputs with a centralized monitoring dashboard, enabling faster identification of potential network issues and reducing incident detection time by an estimated **18%**.
- Wrote and maintained shell scripts for log analysis and system health checks on **Linux** servers, streamlining routine maintenance tasks.

## EDUCATION

### M.Sc. Data Analytics — National College of Ireland, Dublin

Feb 2026

### B.E. Computer Science — SNS College of Technology, Coimbatore, India

2021

## CERTIFICATIONS

---

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
