PROFESSIONAL EXPERIENCE

Software Engineer — HCL Technologies, Chennai, India

Sep 2021 – Jan 2025

- Analyzed and annotated screenshots of diverse software interfaces, identifying UI elements and interpreting user workflows to train AI models, adhering strictly to visible evidence.
- Evaluated AI model responses by comparing outputs against on-screen data, documenting clear, well-reasoned explanations for assessment judgments.
- Completed structured annotation and data review tasks across various web applications, including dashboards, forms, and admin panels, maintaining high accuracy.
- Collaborated with the customer's team to provide actionable feedback on AI model performance, directly impacting system improvements and quality standards.
- Developed Python scripts to automate data extraction and reporting tasks, processing approximately **15,000 records** daily for operational insights.
- Designed and implemented REST APIs using **Java Spring Boot** for cross-service data exchange, ensuring robust system integrations.

SKILLS

AI & Data Annotation – Screenshot Analysis, UI Interpretation, Data Review, Annotation, Workflow Analysis, Evidence-Based Assessment

Software Development – Java, Spring Boot, Python, REST APIs, SQL, PostgreSQL, MySQL, Oracle, Docker, Git, Jenkins

Cloud & Operations – AWS (EC2, S3, Lambda, CloudWatch), Linux, Splunk, Dynatrace

Data Analysis & BI – Power BI, Tableau, DAX, Power Query, Data Modelling, R, RStudio, pandas, NumPy

Project Management & Tools – Jira, Confluence, Agile, Scrum, Change Management, Time Management, Prioritization

PROJECTS

AI Data Reviewer - Software Interface Analysis

- Reviewed and analyzed screenshots of diverse software interfaces, meticulously identifying UI elements and user workflows to train AI models, ensuring all judgments were strictly evidence-based.
- Annotated AI model responses, distinguishing between observable data and assumptions, and documenting clear explanations for assessment decisions across various web applications.
- Provided structured feedback on annotation tasks to the customer team, contributing to the continuous improvement of AI model accuracy and performance.

Automated Data Processing & Reporting Pipeline

- Developed Python scripts to build ETL pipelines for data ingestion and transformation from disparate sources, processing approximately **15,000 records** daily.
- Created automated scheduled reports using SQL queries across PostgreSQL and Oracle databases, summarizing key operational metrics for business stakeholders.
- Implemented REST APIs in **Java Spring Boot** to expose processed data, facilitating seamless integration with downstream enterprise systems.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin

Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India

2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
