PROFESSIONAL EXPERIENCE

Software Engineer — HCL Technologies, Chennai, India

Sep 2021 – Jan 2025

- Critically assessed AI-generated text outputs for quality, clarity, and adherence to **editorial judgment** guidelines, identifying and documenting ~15 distinct types of stylistic inconsistencies per week.
- Provided detailed, nuanced feedback on AI model performance across **diverse content types**, contributing to the refinement of scoring criteria and evaluation processes for a new AI training dataset.
- Collaborated with cross-functional teams to define and enhance **evaluation workflows** and best practices, ensuring consistent application of quality standards across a team of 7 evaluators.
- Supported the development of **training data** for next-generation AI systems by meticulously annotating and reviewing outputs, directly impacting model reliability and user experience.
- Developed Python scripts to automate the aggregation and initial filtering of AI evaluation results, reducing manual data processing time for the quality assurance team by **approximately 30%**.
- Maintained high accuracy and consistency in evaluations of **ambiguous scenarios**, ensuring reliable and actionable insights for AI model improvement initiatives.

SKILLS

AI Evaluation – Content Quality Assessment, Usability Review, Feedback Provision, Training Data Development, Annotation Workflows, QA, Moderation

Content & Editorial – Reading Comprehension, Attention to Detail, Editorial Judgment, Content Strategy, Creative Content Review

Technical Skills – Python, SQL, Java, Spring Boot, AWS, Docker, Linux, Git, Jenkins

Data Analysis & BI – Power BI, Tableau, DAX, Power Query, Data Modelling, Data Warehousing, Statistical Analysis, R

Collaboration & Communication – Written Communication, Verbal Communication, Cross-functional Collaboration, Stakeholder Communication, Critical Thinking, Problem-Solving

PROJECTS

AI Content Quality Assurance Framework

- Designed and implemented a structured quality assurance framework for evaluating AI-generated content, focusing on **clarity, coherence, and factual accuracy**.
- Developed detailed annotation guidelines and scoring rubrics for a team of 5 evaluators, standardizing the assessment of over 1,000 AI outputs per week.
- Authored comprehensive documentation and training materials on evaluation best practices, enabling a **15% improvement** in inter-annotator agreement within the first quarter.

Automated Data Annotation Pipeline

- Engineered a Python-based pipeline to automate the initial stages of data annotation for AI model training, integrating with **AWS S3** for data storage.
- Implemented custom logic to pre-filter and categorize AI-generated text based on predefined quality thresholds, reducing the manual review load by **approximately 25%**.
- Wrote SQL queries against **PostgreSQL** to validate data integrity and structure before pipeline ingestion, ensuring consistency in the training dataset.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin

Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India

2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
