PROFESSIONAL EXPERIENCE

Software Engineer — HCL Technologies, Chennai, India

Sep 2021 – Jan 2025

- Architected and developed scalable web interfaces using **JavaScript** and **TypeScript**, translating complex requirements into reusable code components.
- Collaborated with designers and backend engineers to deliver high-quality solutions, ensuring cross-browser compatibility and optimizing applications for speed.
- Implemented best practices in frontend engineering through rigorous **code reviews** and participation in **continuous integration** workflows.
- Troubleshoot and debugged existing applications, enhancing user satisfaction and performance by addressing complex frontend issues.
- Contributed to a strong team culture by communicating clearly and proactively through written and verbal channels in a remote-first environment.
- Managed the development lifecycle for new frontend features, from initial concept through to deployment and post-release monitoring.

SKILLS

Frontend Technologies – JavaScript, TypeScript, HTML5, CSS3, React, Angular, Vue.js

Frameworks/Libraries – Node.js, NestJS, Express.js

Databases – PostgreSQL, MySQL, MongoDB

Cloud Platforms – AWS (EC2, S3, Lambda, CloudWatch)

Development Tools – Git, Jenkins, Docker, Jira, Confluence

Languages – Java, Python, SQL, R

Methodologies – Agile, Scrum

PROJECTS

Enterprise Application UI Modernization (HCL Technologies)

- Refactored legacy Java Swing components into a modern React frontend, improving user experience for internal operational dashboards.
- Developed reusable UI components using **React** and **TypeScript**, which were adopted across multiple internal applications, reducing development time by an estimated **18%**.
- Integrated the new frontend with existing Java Spring Boot REST APIs, ensuring seamless data flow and consistent user interaction patterns.

Customer-Facing Web Portal Development (HCL Technologies)

- Built a dynamic web portal using **Angular** and **TypeScript** to provide clients with real-time status updates on their financial transactions.
- Collaborated with business analysts and operations teams to gather requirements and translate them into user-friendly interface designs and features.
- Implemented data visualization components to display transaction summaries and alert statuses, enhancing client understanding of operational workflows.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin

Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India

2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
