PROFESSIONAL EXPERIENCE

Software Engineer — HCL Technologies, Chennai, India

Sep 2021 – Jan 2025

- Assisted in the **Risk Governance process** by coordinating and compiling information for reporting to Risk Oversight Committees, ensuring timely submission of documentation.
- Supported the 2nd line review and challenge activities by completing **Risk Assessments** and Risk Reviews, tracking and reporting on improvement actions to mitigate identified risks.
- Contributed to the production of **risk reporting** for internal and external stakeholders, highlighting emerging risks and promoting risk culture awareness across the organisation.
- Supported the development and delivery of **training materials** on the Enterprise Risk Management (ERM) framework, identifying opportunities to enhance effectiveness and introduce efficiencies.
- Collaborated with the 1st line of defense to adopt Group **Risk Management tools**, templates, and methodologies, facilitating consistent risk management practices.
- Executed **Python scripts** for automating data extraction and validation tasks, supporting the collection of information required for governance documents and policy updates.

SKILLS

Risk Management – Enterprise Risk Management (ERM) framework, Risk Governance, Risk Oversight Committees, Emerging Risks, Risk Identification, Risk Assessment, Risk Response, Risk Monitoring, Assurance Activities, Risk Culture Awareness

Business Analysis – Requirements Gathering, Policy Support, Governance Documents, UAT Support, Stakeholder Engagement, Business Systems Integration

Data Analysis & Reporting – Risk Reporting, Data Validation, Data Extraction, Power BI, Tableau, DAX, Power Query

Programming & Scripting – Python, Java, SQL, Spring Boot, REST APIs

Cloud & Operations – AWS (EC2, S3, Lambda, CloudWatch), Linux, Docker, Jenkins, Git, Splunk, Dynatrace

Methodologies – Agile, Scrum, Change Management

PROJECTS

Enterprise Risk Assessment Framework Implementation (HCL Technologies)

- Developed and implemented a standardized **Risk Assessment framework** for enterprise clients, incorporating risk identification, analysis, and mitigation planning modules.
- Automated data aggregation for risk reporting using **Python scripts** and **SQL queries** across PostgreSQL and Oracle databases, reducing manual effort by approximately 30%.
- Created interactive dashboards in **Power BI** to visualize risk landscapes and track the progress of mitigation actions for an operations dashboard client.

Financial Operations Dashboard Enhancement (HCL Technologies)

- Enhanced a **payments operations dashboard** by integrating new alerting mechanisms for transaction failures and bottlenecks, improving incident response times.
- Supported the collection and validation of data for **regulatory awareness** and audit trail requirements within the financial services client environment.
- Collaborated with business analysts to refine **reconciliation workflows** and reporting features, ensuring accuracy and completeness of transaction monitoring.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin

Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India

2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
