PROFESSIONAL EXPERIENCE

Software Engineer — HCL Technologies, Chennai, India

Sep 2021 – Jan 2025

- Designed and implemented **API automation scripts** using **Python** and **Postman**, achieving coverage for over 90% of critical payment processing endpoints.
- Developed and maintained **Web UI automation scripts** with **Selenium**, effectively handling dynamic elements and asynchronous page loads across enterprise applications.
- Collaborated with development and product teams to clarify requirements, assess test feasibility, and define comprehensive test cases for new features, ensuring alignment with product goals.
- Optimized existing **automation test frameworks**, improving script stability and reducing execution times by an average of **18%** through refactoring and enhanced error handling.
- Executed test cases across multiple environments, meticulously recording and tracking defects in **Jira**, and worked closely with developers to ensure timely resolution of P1 and P2 issues.
- Analyzed test results, generated detailed **test reports**, and contributed to release readiness assessments, providing crucial quality assurance insights to product stakeholders.

SKILLS

Testing Methodologies – Automation Software Testing, Test Case Design, Test Execution, Defect Tracking, API Automation Testing, Web UI Automation Testing, Performance Testing, Test Feasibility Analysis

Programming Languages – Python, Java, SQL

Automation Tools – Selenium, Postman, Playwright, JMeter, Appium, Cypress

Frameworks & CI/CD – pytest, TestNG, Jenkins, Git, SVN

Protocols & APIs – HTTP, RESTful APIs

Defect Management – Jira

Operating Systems – Linux

PROJECTS

Automated Payment Gateway Testing Framework

- Developed a comprehensive **API automation suite** using **Python** and **pytest** to validate the functionality of a financial services client's payment gateway, covering transaction processing and error handling scenarios.
- Implemented **Web UI automation** with **Selenium** to test user interfaces for initiating and monitoring payment workflows, focusing on dynamic element interactions and data validation accuracy.
- Integrated the automation framework with **Jenkins** for continuous integration, enabling automated test execution on code commits and providing rapid feedback on build stability.

Enterprise Application Regression Test Suite Enhancement

- Revamped an existing regression test suite for an enterprise resource planning system, enhancing script maintainability and reducing false positives by **22%**.
- Authored new **Python** scripts to automate data validation checks against **PostgreSQL** databases, ensuring data integrity during system updates and integrations.
- Collaborated with business analysts to define acceptance criteria and ensure thorough coverage of key business processes within the automated test suite.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin

Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India

2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
