PROFESSIONAL EXPERIENCE

Software Engineer — HCL Technologies, Chennai, India

Sep 2021 – Jan 2025

- Managed livestock procurement for a major agri-business processing plant, ensuring supply met production demands for approximately **1,500 cattle** per week.
- Negotiated competitive pricing for livestock acquisition, maintaining stringent quality standards that aligned with customer specifications and minimized processing variance by **~15%**.
- Cultivated and sustained strong relationships with a network of **over 50 farmer suppliers** through regular farm visits and direct communication, fostering reliable engagement.
- Coordinated closely with the production team to align livestock scheduling with processing capabilities, ensuring a seamless flow from procurement to final output and reducing idle processing time by **~10%**.
- Facilitated accurate and timely supplier payments, processing an average of **200 payment instructions** per month in adherence to agreed contractual terms.
- Collaborated with Department of Agriculture officials to resolve documentation and compliance issues, ensuring adherence to national regulations for livestock handling and traceability.
- Automated weekly livestock throughput planning using **Python scripting**, integrating data from multiple sources to generate reports that reduced manual collation time by **~5 hours** per week.

SKILLS

Procurement & Supply Chain – Livestock Procurement, Supplier Relationship Management, Price Negotiation, Quality Standards, Production Planning, Compliance, Documentation, Payment Processing, Farm Visits, Business Operations

Programming & Scripting – Python, Shell Scripting

Data Analysis & Reporting – Data Integration, Reporting, Data Validation, Spreadsheets

Communication & Collaboration – Stakeholder Management, Interpersonal Skills, Cross-functional Liaison, Farmer Engagement

Operations & Compliance – Regulatory Compliance, SLA Management, Incident Response, Change Management

PROJECTS

Livestock Supply Chain Optimization (HCL Technologies)

- Developed automated **Python scripts** to analyze historical cattle pricing data from various regional markets, identifying optimal purchasing windows.
- Built a reporting module using **SQL queries** against an Oracle database to track supplier performance metrics, including delivery timeliness and quality assessments for over 40 suppliers.
- Assisted in coordinating logistics for livestock movement, ensuring timely arrival at processing facilities and reducing transit-related spoilage by approximately **8%**.

Enterprise System Integration Support (HCL Technologies)

- Supported integration workflows between an enterprise resource planning system and a financial operations dashboard using **Java Spring Boot** services and **REST APIs**.
- Managed change control processes for system configuration updates, coordinating user acceptance testing (UAT) across **3 business units**.
- Generated ad-hoc **SQL reports** from PostgreSQL databases to validate data consistency across interconnected systems during upgrade cycles.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin

Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India

2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
