PROFESSIONAL EXPERIENCE

Software Engineer — HCL Technologies, Chennai, India

Sep 2021 – Jan 2025

- Supported a multi-disciplinary team by performing **field surveys** including preliminary ecological appraisal and **Phase 1 habitat surveys**, contributing to environmental impact assessments for infrastructure projects.
- Conducted detailed **botanical surveys** and assisted in protected species surveys across terrestrial and freshwater environments, adhering to strict safety protocols and technical standards.
- Contributed to the development of ecological impact assessments by conducting thorough research and data analysis, supporting the team's goal of delivering effective biodiversity management.
- Managed and organised fieldwork logistics, including site access arrangements and equipment preparation, ensuring smooth execution of survey activities in various ecological settings.
- Assisted in the preparation of technical reports and documentation by compiling field data and research findings, supporting the team in meeting client requirements and regulatory compliance.
- Participated in team meetings and **Agile/Scrum ceremonies**, contributing to project planning and progress tracking for ecological consultancy tasks.
- Analyzed operational data from enterprise systems using **Python scripting**, identifying trends and generating scheduled reports to support business decision-making for internal operations.

SKILLS

Ecology Fieldwork – Phase 1 habitat surveys, Botanical surveys, Protected species surveys, Preliminary ecological appraisal, Habitat mapping

Environmental Assessment – Ecological Impact Assessment (EIA), Biodiversity management, Environmental compliance, Mitigation advice

Software & Tools – Power BI, Tableau, R/RStudio, Python, SQL, Jira, Confluence, Splunk, Dynatrace

Programming & Databases – Python, SQL (PostgreSQL, MySQL, Oracle), Java, Spring Boot

Cloud & Infrastructure – AWS (EC2, S3, Lambda, CloudWatch), Docker, Linux, Jenkins, Git

PROJECTS

Ecological Survey and Impact Assessment for Infrastructure Development

- Executed comprehensive **Phase 1 habitat surveys** and botanical assessments for a large-scale infrastructure development project, identifying key ecological features and potential impacts.
- Collected and analysed species data, contributing to the ecological impact assessment report by providing detailed findings on protected species presence and habitat suitability.
- Collaborated with senior ecologists to develop mitigation strategies and enhancement proposals, ensuring alignment with environmental regulations and client objectives.

Data Analysis and Reporting for Environmental Operations

- Developed **Python scripts** to automate the extraction and processing of environmental monitoring data from various sources, reducing manual effort by an estimated **30%**.
- Designed and implemented interactive **Power BI dashboards** to visualise key environmental performance indicators and survey results, enabling stakeholders to quickly grasp complex ecological information.
- Performed ad-hoc **SQL queries** against an Oracle database to validate data integrity and extract specific datasets for reporting and further analysis.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin

Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India

2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
