PROFESSIONAL EXPERIENCE

Software Engineer — HCL Technologies, Chennai, India

Sep 2021 – Jan 2025

- Developed and maintained **Python** data pipelines for ETL processes, transforming **structured and unstructured datasets** for analytical use, processing approximately **5,000 records per hour**.
- Designed and implemented **Power BI dashboards** and interactive visualizations to present key performance indicators and analytical insights to business stakeholders, delivering **15 distinct reports**.
- Assisted in the development and optimization of **data pipelines** and ETL processes, focusing on data cleansing, transformation, and validation for various reporting needs.
- Collaborated with cross-functional teams to gather business and technical requirements for data-driven projects, translating them into actionable technical specifications for **data modeling** and platform development.
- Supported data modeling and database management tasks, contributing to the design and maintenance of **cloud-based data solutions**.
- Contributed to process automation initiatives by scripting routine tasks and workflows, reducing manual effort by an estimated **10 hours per week** across the operations team.
- Documented technical processes, data workflows, and data definitions to ensure knowledge transfer and maintain data governance standards within the team.

SKILLS

Programming Languages – Python, Java, SQL, R

Data Engineering & ETL – ETL processes, Data Pipelines, Data Cleansing, Data Transformation, Data Validation, Data Warehousing

Cloud Platforms – AWS (EC2, S3, Lambda, CloudWatch)

Databases – PostgreSQL, MySQL, Oracle

BI & Visualization – Power BI, Tableau, DAX, Power Query

Tools & Methodologies – Git, Jenkins, Jira, Confluence, Agile, Scrum, Docker

PROJECTS

MSc Data Analytics Capstone Project

- Developed interactive **Power BI dashboards** to visualize key trends and insights from a large dataset for a simulated business case.
- Applied **Python** (pandas, NumPy) for data cleaning, feature engineering, and exploratory data analysis, identifying significant patterns.
- Created a comprehensive data model and utilized **DAX** measures to support complex analytical queries and reporting requirements.

Automated Reporting Pipeline (HCL Technologies)

- Engineered a **Python**-based ETL pipeline to automate the extraction, transformation, and loading of financial transaction data from multiple sources into a central PostgreSQL database.
- Implemented scheduled reporting using **SQL** queries and generated summary reports, reducing manual reporting time by **~8 hours per cycle** for the operations team.
- Managed the pipeline's deployment and scheduling on **AWS Lambda**, ensuring reliable and timely data delivery for downstream analysis.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin

Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India

2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
