## PROFESSIONAL EXPERIENCE

---

### Software Engineer — HCL Technologies, Chennai, India

Sep 2021 – Jan 2025

- Designed and developed end-to-end services for employee career mobility and pay incentive programs, focusing on scalable, full-stack, serverless AWS architectures.
- Built and optimized data pipelines using **Python** and **SQL** to process employee training and job application data, supporting regulatory compliance and diverse workflow requirements.
- Engineered highly available and performant tier-one services on **AWS Lambda** and **API Gateway**, ensuring responsive user experiences for hundreds of thousands of associates globally.
- Automated complex business processes by integrating native **AWS services** and other technologies, reducing manual intervention and creating a more seamless user experience.
- Participated in code reviews and sprint planning, estimating technical tasks and contributing to the full software development life cycle within an Agile/Scrum framework.
- Collaborated with cross-functional teams to gather requirements and translate them into technical solutions for enterprise business systems, ensuring alignment with product goals.
- Containerized microservices using **Docker** and deployed them to a managed Kubernetes environment on **AWS EKS**, implementing basic resource limits and monitoring.
