PROFESSIONAL EXPERIENCE

Software Engineer — HCL Technologies, Chennai, India

Sep 2021 – Jan 2025

- Developed and maintained a **React** and **TypeScript** component library for a design system, documenting components with **Storybook** and ensuring adherence to accessibility standards.
- Translated UX/UI designs into reusable, scalable front-end components, focusing on consistency, performance, and maintainability for a large-scale software platform.
- Implemented automated testing for design system components using **Playwright**, achieving over 90% test coverage for critical UI elements.
- Contributed to the front-end development of an embedded software development platform built on **Microsoft Visual Studio Code**, integrating design system components to deliver a cohesive user experience.
- Participated actively in **code reviews** and **agile ceremonies**, maintaining high standards for code quality and contributing to sprint planning and technical estimations.
- Collaborated with product designers and cross-functional teams to influence UI architecture and deliver high-quality user experiences for enterprise engineers.
- Containerized front-end applications using **Docker** and managed deployments via **Jenkins** pipelines, improving release cycle efficiency by approximately 15%.

SKILLS

Frontend Frameworks – React, TypeScript, JavaScript, HTML, CSS

Design Systems & UI – Component Libraries, Storybook, Accessibility (WCAG), Responsive Design, Theming

Testing Frameworks – Playwright, Jest

Development Tools – Git, Jenkins, Docker, VS Code

Methodologies – Agile, Scrum, Code Reviews

PROJECTS

Enterprise Design System Implementation

- Built and documented a **React** and **TypeScript** based component library, establishing standards for theming and extensibility across multiple product teams.
- Integrated **Storybook** for interactive component development and documentation, enabling designers and developers to visualize and test components in isolation.
- Developed comprehensive unit and integration tests using **Playwright**, ensuring component reliability and adherence to design specifications for a user base of 5,000+ engineers.

Embedded Software Platform UI Development

- Contributed to the front-end architecture of an embedded software development platform, focusing on scalability and maintainability using **React** and **TypeScript**.
- Implemented product UI features by integrating pre-built design system components, ensuring a consistent and intuitive user experience for embedded systems developers.
- Collaborated with UX designers to refine user flows and implement responsive layouts, improving user engagement metrics by approximately 10%.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin

Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India

2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
