PROFESSIONAL EXPERIENCE

Software Engineer — HCL Technologies, Chennai, India

Sep 2021 – Jan 2025

- Designed and implemented **Java Spring Boot** RESTful APIs for inter-service communication, handling approximately **500 requests per minute** and reducing data retrieval latency by **18%**.
- Developed and maintained **Hibernate/JPA** entities and query logic for a core enterprise data management service, ensuring data integrity across multiple transaction workflows.
- Authored **JUnit** test suites and mock objects for critical Java components, achieving over **90% code coverage** for newly developed modules and improving overall application stability.
- Collaborated with stakeholders to gather requirements for new features within the **corporate services** domain, translating business needs into actionable technical specifications.
- Participated in **Agile Scrum ceremonies** including sprint planning, daily stand-ups, and retrospectives, contributing to timely delivery of project milestones.
- Managed and optimized **PostgreSQL** database schemas and queries for various enterprise systems, supporting data analysis and reporting needs across different business units.
- Containerized backend services using **Docker** and deployed them to a managed **AWS EC2** environment, ensuring consistent application behaviour across development and production.

SKILLS

Programming Languages – Java, Python, SQL, R

Frameworks & Libraries – Spring Boot, Hibernate, JPA, JUnit, pandas, NumPy, scikit-learn, Flask, FastAPI

Cloud & DevOps – AWS (EC2, S3, Lambda, CloudWatch), Docker, Jenkins, Git

Databases – PostgreSQL, MySQL, Oracle

Tools & Platforms – Jira, Confluence, Splunk, Dynatrace, Power BI, Tableau

Methodologies – Agile, Scrum

PROJECTS

Corporate Governance Data Management System (HCL Technologies)

- Developed a **Java Spring Boot** application to manage corporate entity data, integrating with existing client systems via **REST APIs**.
- Implemented data validation and integrity checks using **Hibernate** and **PostgreSQL**, supporting regulatory compliance reporting for enterprise clients.
- Designed and built a **CRUD interface** for managing statutory filings and compliance documentation, enhancing operational efficiency for the governance team.

Internal Compliance Reporting Dashboard (HCL Technologies)

- Engineered **Python** scripts to automate the extraction and transformation of data from various enterprise sources, preparing datasets for analysis.
- Created interactive **Power BI dashboards** to visualize key compliance metrics and operational status for internal stakeholders, supporting data-driven decision-making.
- Developed **DAX measures** and data models within Power BI to provide insights into regulatory adherence and identify areas for process improvement.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin

Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India

2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
