PROFESSIONAL EXPERIENCE

Software Engineer — HCL Technologies, Chennai, India

Sep 2021 – Jan 2025

- Managed stakeholder engagement activities for a regional infrastructure delivery programme, coordinating public information events and gathering feedback from diverse groups including landowners and community representatives.
- Assisted in the development and delivery of project communication plans, drafting content for newsletters, website updates, and informational leaflets to ensure clear and transparent information dissemination to project stakeholders.
- Responded to project queries from landowners and members of the public, providing timely and accurate information regarding infrastructure project developments and addressing concerns.
- Supported technical teams by translating complex engineering information into accessible language for stakeholder communications, ensuring needs were understood and accurately reflected in project decisions.
- Maintained detailed records of all stakeholder engagement activities and feedback received, ensuring comprehensive documentation for project reporting and analysis using Confluence.
- Conducted desktop research on land and property aspects relevant to infrastructure projects, contributing to the comprehensive understanding of project impacts and stakeholder interests.
- Containerized stakeholder communication tools using **Docker** and deployed them to an **AWS EC2** instance, improving deployment consistency and reducing setup time for new project initiatives.

SKILLS

Communication & Engagement – Stakeholder Engagement, Public Relations, Content Creation, Event Coordination, Feedback Management, Research

Project Management & Support – Project Communication Plans, Requirements Gathering, Documentation, Jira, Confluence, Agile Methodologies

Technical Skills – Python Scripting, SQL, Java Spring Boot, REST APIs, AWS (EC2, S3, Lambda, CloudWatch), Docker, Linux

Data Analysis & Reporting – Power BI, Tableau, DAX, Power Query, Data Modelling, R/RStudio, pandas, NumPy

Domain Knowledge – Infrastructure Projects, Planning Processes, GDPR Awareness, Financial Services Operations Dashboard

PROJECTS

Infrastructure Project Communications Hub

- Developed a centralised communication platform using **Python Flask** and **PostgreSQL** to manage project updates, stakeholder contact information, and feedback logs for a large-scale infrastructure initiative.
- Engineered automated reporting scripts in **Python** to generate weekly summaries of stakeholder engagement activities, identifying key themes and concerns for project management review.
- Designed and implemented a secure API using **Java Spring Boot** to integrate project status updates from technical teams into the communication hub, ensuring data consistency.

MSc Applied Data Analytics for Project Insights

- Created interactive **Power BI** dashboards visualising project progress, stakeholder sentiment, and communication reach for a simulated infrastructure development scenario, presenting findings to faculty and peers.
- Performed data cleaning and transformation using **Power Query** and **pandas** on diverse datasets to prepare them for analysis and visualisation in **Power BI**.
- Applied statistical analysis techniques in **R** to identify correlations between communication strategies and stakeholder engagement levels, informing best practices.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin

Feb 2026

**B.E. Computer Science — SNS College of Technology, Coimbatore,
India**

2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
