PROFESSIONAL EXPERIENCE

Software Engineer — HCL Technologies, Chennai, India

Sep 2021 – Jan 2025

- Provisioned and managed scalable AWS infrastructure using **Terraform**, ensuring high availability for core SaaS platform services.
- Deployed and operated containerised applications on **AWS Fargate** and **Kubernetes**, maintaining robust deployment pipelines.
- Developed automation scripts in **Python** and **Bash** to streamline operational tasks and enhance system reliability.
- Built and optimised **CI/CD pipelines** with **GitHub Actions** for both backend services and AI components, reducing deployment cycles by **30%**.
- Integrated and operated **AI/ML services**, including **Amazon Bedrock** for model invocation and knowledge base management.
- Monitored the performance, cost, and reliability of **AWS workloads** and AI features using **CloudWatch** and custom dashboards, identifying and rectifying latency issues on key recommendation APIs.
- Collaborated with backend and data teams to implement infrastructure improvements supporting **AI-driven features** such as real-time shift recommendations and predictive no-show detection.

SKILLS

Cloud Infrastructure – AWS, Terraform, Kubernetes, Docker, AWS Fargate, VPC, IAM, S3, RDS, CloudWatch

Programming & Scripting – Python, Bash

CI/CD & DevOps – GitHub Actions, Jenkins

AI/ML Operations – Amazon Bedrock, Anthropic Claude, Prompt Engineering, Guardrails, Model Versioning, Latency Optimisation

Networking & Security – Networking Best Practices, Security Best Practices, IAM

PROJECTS

AWS Infrastructure Automation for SaaS Platform

- Automated the provisioning and configuration of AWS resources including EC2, RDS, and S3 using **Terraform**, enabling repeatable and consistent environment deployments.
- Containerised multiple backend microservices with **Docker** and orchestrated them using **Kubernetes** on EKS, improving deployment efficiency and scalability.
- Implemented comprehensive monitoring and alerting using **CloudWatch**, reducing the mean time to detect critical incidents by **20%**.

AI Service Integration and Operationalisation

- Integrated **Amazon Bedrock** to invoke large language models for powering a new chat assistant feature, handling approximately **1,500 requests** per hour during peak testing.
- Developed Python scripts to manage prompt engineering workflows and integrate with **Anthropic Claude** models via API, focusing on responsible AI practices and output consistency.
- Configured **AWS IAM** roles and policies to ensure secure access for AI services and data pipelines, adhering to strict security compliance standards.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin

Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India

2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
