PROFESSIONAL EXPERIENCE

Software Engineer — HCL Technologies, Chennai, India

Sep 2021 – Jan 2025

- Responded to and resolved an average of **25 daily IT tickets** from end-users, diagnosing and fixing hardware and software issues across Windows environments.
- Prepared and deployed **new employee equipment**, including imaging, asset tagging, and comprehensive hardware/software installation, ensuring readiness for immediate use.
- Maintained an accurate **IT asset inventory**, meticulously tracking hardware, software licenses, and related equipment to support efficient resource management and compliance.
- Installed, troubleshoot, and upgraded/replaced **computer hardware components** on user workstations and laptops, addressing performance issues and component failures.
- Assisted in the management of IT tickets, systematically planning and prioritizing to **minimize backlog** and ensure operational efficiency, with diligent follow-up on all issues.
- Ensured **security best practices** were applied to all workstations and laptops, including regular security audits and user awareness guidance.
- Contributed to the maintenance of **internal systems documentation** and knowledge base articles, facilitating faster resolution times for both the IT team and end-users.

SKILLS

Operating Systems – Windows, Linux

Hardware – PC Hardware, Motherboards, CPU, Graphics cards, Laptops

Software & Services – Office 365, Azure, Active Directory, Productivity services

Support Tools – Ticketing Systems, Asset Management

Networking – Networking Fundamentals, Cabling

PROJECTS

Enterprise Desktop Support & Rollout (HCL Technologies)

- Configured and deployed **standardized desktop setups** for over 150 new hires within the financial services division, ensuring consistent hardware and software configurations.
- Performed **hardware component upgrades** and replacements on user laptops, addressing common issues like failing hard drives and insufficient RAM, improving user productivity.
- Documented troubleshooting steps for common software conflicts and hardware failures in a **centralized knowledge base**, reducing average resolution time for the support team by approximately 15%.

IT Asset Management System Enhancement (HCL Technologies)

- Developed Python scripts to automate the **collection of hardware and software inventory data** from a fleet of 500+ Windows workstations.
- Integrated script outputs with an existing **asset tracking database**, improving data accuracy and reducing manual entry errors by an estimated 30%.
- Assisted in the planning and coordination of a **software license audit**, ensuring compliance and identifying underutilized software assets.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin

Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India

2021
