PROFESSIONAL EXPERIENCE

Software Engineer — HCL Technologies, Chennai, India

Sep 2021 – Jan 2025

- Designed and implemented secure Windows and macOS base images (Golden Images) for enterprise deployment, integrating automated provisioning via **Microsoft Intune Autopilot**.
- Managed comprehensive patching policies and device encryption across a fleet of **4,000+ corporate and retail endpoints**, ensuring adherence to security standards.
- Developed and maintained **PowerShell scripts** to automate routine IT infrastructure tasks, including user onboarding/offboarding and group membership management, reducing manual effort by an estimated **20%**.
- Built and deployed automation pipelines using **GitHub Actions** for internal IT scripts and configuration policies, enhancing CI/CD practices for endpoint management.
- Implemented granular endpoint security controls including **DLP policies, device encryption, and USB restrictions**, supporting compliance with PCI-DSS and ISO 27001 standards.
- Developed health check scripts using **Python** to proactively identify and report on endpoint issues, reducing escalations to the Service Desk by approximately **15%**.
- Collaborated with CyberSecurity and Service Desk teams to standardize endpoint management strategies and integrate new automation tools into existing IT workflows.

SKILLS

Endpoint Management – Microsoft Intune, Autopilot, MDM, JAMF, macOS, Windows GPOs, SCCM, MDT

Scripting & Automation – PowerShell, Python, Azure DevOps, GitHub Actions, Ansible, API Integration

Security & Compliance – DLP, Device Encryption, Anti-Virus, USB Restrictions, PCI-DSS, ISO 27001, NIST

Identity & Access Management – Azure AD, O365, User Onboarding/Offboarding, Group Membership Management

Infrastructure & Cloud – Linux, Networking, IT Transformation Projects, Service Workflow Integration

PROJECTS

Automated Endpoint Provisioning Pipeline

- Engineered an automated endpoint provisioning pipeline using **Microsoft Intune Autopilot** and custom **PowerShell** scripts to streamline the deployment of new Windows devices.
- Implemented standardized configurations and security policies, including **device encryption and anti-virus enforcement**, for over 1,000 new endpoints annually.
- Integrated with inventory management tools to automate asset tracking from procurement through decommissioning, improving lifecycle management accuracy.

IT Automation for Compliance Reporting

- Developed a suite of **Python** scripts to automate the generation of compliance reports, including patch status and configuration drift, for a fleet of **3,000+ devices**.
- Created automated data collection and aggregation processes using **APIs** to feed into a central dashboard, providing real-time visibility into endpoint health.
- Designed and implemented automated alerts for non-compliant devices, reducing manual follow-up by the IT operations team by approximately **30%**.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin

Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India

2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
