PROFESSIONAL EXPERIENCE

Software Engineer — HCL Technologies, Chennai, India

Sep 2021 – Jan 2025

- Managed daily monitoring and troubleshooting for core enterprise software platforms, ensuring system stability and availability for EU and UK employees.
- Assisted in the configuration and deployment of identity platforms and collaboration tools, aligning with global security policies and standards.
- Followed established change management procedures for system updates and modifications, coordinating with cross-functional teams to minimize disruption.
- Maintained accurate system documentation, including runbooks and knowledge base articles, to support the IT Service Desk and facilitate efficient issue resolution.
- Supported the administration of Mobile Device Management (MDM) solutions like **Jamf** and **Microsoft Intune** for end-user devices.
- Helped implement and enforce security measures, including software patching and OS updates, across managed endpoints.
- Provided first-level support for network escalations, including **Wi-Fi**, **VPN**, and firewall issues, performing basic troubleshooting under senior guidance.

SKILLS

Identity & Access Management (IAM) – Okta, OneLogin, User Lifecycle Management

Collaboration Tools – Google Workspace, Microsoft O365, Slack

Mobile Device Management (MDM) – Jamf, Microsoft Intune

Ticketing Systems – ServiceNow, Atlassian/Jira

Networking – Wi-Fi, VPN, Firewall Troubleshooting

System Administration – Monitoring, Configuration, Deployment, Patching, Documentation

Cloud Platforms – AWS (EC2, S3, Lambda, CloudWatch)

PROJECTS

Enterprise Application Support & Monitoring Enhancement

- Enhanced the monitoring capabilities for critical enterprise applications by configuring advanced alerting rules in **Splunk** and **Dynatrace**, reducing P1 incident detection time by an average of 15 minutes.
- Developed Python scripts to automate routine system health checks and data validation tasks across PostgreSQL and Oracle databases, completing tasks that previously took 4 hours manually in under 30 minutes.
- Contributed to the stability of Java Spring Boot services by triaging and resolving production incidents, focusing on root cause analysis and implementing permanent fixes to prevent recurrence.

IT Service Desk Knowledge Base Expansion

- Authored and maintained comprehensive runbooks and knowledge base articles for the IT Service Desk, covering common end-user issues and standard operating procedures for enterprise software.
- Assisted in the deployment and configuration of new user accounts and access permissions within an enterprise identity platform, ensuring adherence to security policies.
- Coordinated with cross-functional teams to gather requirements and support User Acceptance Testing (UAT) for system configuration updates.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin

Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India

2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
