PROFESSIONAL EXPERIENCE

Software Engineer — HCL Technologies, Chennai, India

Sep 2021 – Jan 2025

- Designed and implemented **CI/CD pipelines** on **Jenkins** for automated build, test, and deployment workflows, reducing manual intervention by **40%**.
- Authored **Infrastructure as Code** using **Terraform** to provision and manage cloud resources on **Microsoft Azure**, ensuring consistent and repeatable environment deployments.
- Supported **Kubernetes** cluster operations and deployment workflows, including the creation and management of **Helm** charts for application packaging and release.
- Implemented secure delivery practices, integrating **SSO** and access management controls into deployment pipelines, and coordinating with security partners.
- Collaborated with software engineers and architects to troubleshoot and resolve build, pipeline, and environment-related issues, improving system stability.
- Contributed to the creation and maintenance of comprehensive **operational documentation** and runbooks for platform services and deployment processes.
- Participated in **agile ceremonies** and global platform initiatives, contributing to sprint planning and technical estimation for new feature development.

SKILLS

Cloud Platforms – Microsoft Azure, AWS (EC2, S3, Lambda, CloudWatch)

CI/CD & Automation – Jenkins, GitHub Actions, Terraform, Ansible, Bash Scripting

Containerization & Orchestration – Kubernetes, Docker, Helm

Observability & Monitoring – Splunk, Dynatrace, Azure Monitor

Languages & Databases – Java, Python, SQL (PostgreSQL, MySQL, Oracle)

DevOps Tools – Jira, Confluence, Artifactory, Git

PROJECTS

Azure Cloud Platform Automation

- Developed **Terraform** modules to automate the provisioning of **Azure** infrastructure, including virtual networks, Kubernetes clusters (AKS), and databases.
- Integrated **Jenkins** pipelines with **Terraform** and **Helm** to enable automated deployments to the managed Kubernetes environment, supporting a 7-person development team.
- Authored detailed runbooks and architectural diagrams for the automated cloud environment, facilitating knowledge transfer and operational support.

CI/CD Pipeline Enhancement for Java Services

- Engineered a new **CI/CD pipeline** using **Jenkins** and **Git** for a suite of **Java Spring Boot** microservices, incorporating automated unit and integration testing.
- Implemented artifact management with **JFrog Artifactory**, ensuring version control and efficient distribution of build artifacts.
- Reduced average deployment time for Java services from 45 minutes to 18 minutes through pipeline optimization.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin

Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India

2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
