PROFESSIONAL EXPERIENCE

Software Engineer — HCL Technologies, Chennai, India

Sep 2021 – Jan 2025

- Designed and deployed **cloud-based network solutions** on AWS, integrating **EC2** instances and **S3** storage for scalable application backends.
- Configured and maintained **data centre network architectures**, including **switching** and **routing** protocols, across on-premises infrastructure.
- Automated server operations and network configurations using **Python scripting**, reducing manual intervention time for routine tasks by approximately **30%**.
- Managed **virtualization platforms**, performing VM migrations and decommissioning with minimal service disruption to ensure high availability.
- Built and maintained **monitoring tools** for network and infrastructure performance using **Splunk** and **CloudWatch**, analyzing trends to proactively identify and resolve bottlenecks.
- Collaborated with cross-functional teams (application, data centre ops, security) following **ITIL-based change and incident management processes** to deliver infrastructure enhancements.
- Wrote and maintained **clear migration documentation** and handover materials for data centre relocation projects, facilitating smooth transitions and knowledge transfer across teams.

SKILLS

Cloud Platforms – AWS (EC2, S3, Lambda, CloudWatch)

Networking – Switching, Routing, Network Segmentation, Cisco Platforms

Virtualization – VMware, OpenStack

Storage – NAS, SAN, Multipathing, Data Replication

Automation & Scripting – Python, Shell Scripting, Jenkins, Git

Data Centre Operations – Hardware Installation, Cabling, Power Management

Methodologies – Agile, ITIL, Change Management, Incident Management

PROJECTS

HCL Cloud Infrastructure Automation

- Developed **Python scripts** to automate the provisioning and configuration of **AWS EC2** instances and associated network security groups, reducing deployment time for new environments by **40%**.
- Implemented CI/CD pipelines using **Jenkins** for automated testing and deployment of infrastructure-as-code scripts, ensuring consistent and reliable environment builds.
- Managed containerised applications deployed on **Docker** within AWS, focusing on efficient resource allocation and operational monitoring.

HCL Data Centre Network Optimization

- Designed and configured **VLAN segmentation** and **access control lists** on enterprise switches to enhance network security and isolate traffic flows.
- Performed routine maintenance and troubleshooting on **routing protocols** (e.g., OSPF) and performed **data integrity validation** post-configuration changes.
- Authored detailed documentation for network configurations and operational procedures, supporting knowledge sharing for the production support team.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin

Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India

2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
