## PROFESSIONAL EXPERIENCE

---

### Software Engineer — HCL Technologies, Chennai, India

Sep 2021 – Jan 2025

- Developed intuitive **dashboards** in **Power BI**, translating complex datasets into actionable business insights for senior management, resulting in a **15% improvement** in report delivery speed.
- Performed **statistical analysis** using **SQL** and **Python (pandas, NumPy)** to identify trends and patterns within large datasets, supporting data-driven decision-making for product development teams.
- Engineered **data transformations** and wrangled diverse datasets using **SQL** and **Power Query**, combining disparate fields to create cohesive views for comprehensive analysis and reporting.
- Contributed to the enhancement of existing features and conducted **performance tuning** on data pipelines, optimizing query execution and improving data availability for reporting tools.
- Managed and organized large datasets, applying **data wrangling** techniques to prepare information for **AI testing** and prompt engineering initiatives, ensuring data integrity and relevance.
- Facilitated technical discussions with business stakeholders, translating complex data findings into clear, impactful visualizations and narratives that demonstrated tangible **business impact**.
- Managed **change management** processes for data-related system configurations and updates, coordinating User Acceptance Testing (UAT) and providing post-implementation support to ensure smooth transitions.

## SKILLS

---

**Data Analytics & BI** – Power BI, Tableau, DAX, Power Query, Data Modelling, Data Warehousing, Business Intelligence

**Programming & Scripting** – Python, SQL, R, Javascript

**Data Science & ML** – pandas, NumPy, scikit-learn, Statistical Analysis, A/B Testing, Time-Series Analysis, Machine Learning Fundamentals

**Databases & Querying** – PostgreSQL, MySQL, Oracle, SQL Querying

**AI & LLM** – AI Testing, Prompt Engineering, Data Extraction, Data Mining, Data Transformation, Large Datasets

**Tools & Platforms** – Google Workplace, G Suite, Microsoft Excel, Google Sheets, Jira, Confluence, Jenkins, Git, AWS (EC2/S3/Lambda/CloudWatch)

**Methodologies & Concepts** – Agile, Scrum, Change Management, Applied Statistical Terminologies, Data Visualisation, Requirements Gathering

## PROJECTS

---

### Interactive BI Dashboard for Operational Insights

- Developed an interactive **Power BI dashboard** to monitor key operational metrics for enterprise systems, providing real-time visibility into performance and status.
- Designed and implemented complex **DAX measures** and data models within Power BI to derive meaningful insights from disparate data sources, enabling proactive issue identification.
- Organized and transformed large volumes of transactional data using **Power Query**, preparing it for analysis and visualization to support data-driven decision-making.

### Data Wrangling and Statistical Analysis for AI Model Prep

- Applied advanced **data wrangling** techniques in **Python (pandas, NumPy)** to clean, structure, and combine large, complex datasets for AI and machine learning applications.
- Performed **statistical analysis** on prepared datasets to identify significant features and patterns, laying the groundwork for model training and validation.
- Documented data preparation steps and analytical findings, ensuring reproducibility and providing clear context for downstream AI development efforts.

## EDUCATION

---

**M.Sc. Data Analytics — National College of Ireland, Dublin**

Feb 2026

**B.E. Computer Science — SNS College of Technology, Coimbatore,  
India**

2021

## CERTIFICATIONS

---

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
