PROFESSIONAL EXPERIENCE

Software Engineer — HCL Technologies, Chennai, India

Sep 2021 – Jan 2025

- Developed and maintained data pipelines using **Python**, orchestrating data flows for consumption by analytics and data science teams.
- Designed and implemented SQL queries and data logic for complex analytical requirements, working with relational databases and ensuring data integrity.
- Built and maintained foundational data analytics infrastructure, supporting commercial analytics use cases across the organization.
- Collaborated with cross-functional teams to gather, wrangle, and structure data products that support commercial analytics needs.
- Acted as a business-facing ambassador for new data tools and solutions, demonstrating their business value to stakeholders.
- Containerized data pipeline services using **Docker** and deployed them to **AWS** environments, ensuring scalable and reliable execution.
- Authored technical documentation and user guides for data products, facilitating adoption and empowering business users to leverage data insights.

SKILLS

Programming Languages – Python, Java, C++, SQL

Cloud Platforms & Tools – GCP, AWS, Docker, EC2, S3, Lambda, CloudWatch

Data Engineering & Workflow – Data Pipelines, Data Modeling, Workflow Management Tools, ETL

Data Visualization & BI – Looker Studio, Tableau, DOMO, Sigma, Power BI, DAX, Power Query

Databases & Data Logic – Relational Databases, Query Authoring, SQL

Productivity & Collaboration – Excel, Google Sheets, Google Suite, Jira, Confluence

PROJECTS

Scalable Data Pipeline for Commercial Analytics

- Engineered a scalable data pipeline using **Python** and **SQL** to ingest and transform large volumes of commercial data, supporting downstream analytics.
- Implemented data modeling techniques to structure raw data into a format optimized for reporting and dashboarding, improving query performance by approximately **30%**.
- Integrated the pipeline with cloud services on **AWS**, enabling automated scheduling and reliable execution of data ingestion jobs.

Interactive Dashboard for Sales Performance Insights

- Developed an interactive dashboard using **Power BI** to visualize key sales performance indicators, providing actionable insights to business stakeholders.
- Crafted complex **DAX** measures and optimized data models within Power BI to support dynamic filtering and drill-down capabilities across multiple dimensions.
- Collaborated with business analysts to gather requirements and ensure the dashboard accurately reflected critical commercial metrics, leading to quicker identification of growth opportunities.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin

Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India

2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
