PROFESSIONAL EXPERIENCE

Software Engineer — HCL Technologies, Chennai, India

Sep 2021 – Jan 2025

- Designed, developed, and implemented interactive web applications using **React** and associated libraries, focusing on component-based architecture.
- Wrote clean, maintainable, and well-structured **HTML5** and **CSS3** code, ensuring cross-browser compatibility and responsive design across various devices.
- Optimized frontend application performance by implementing efficient rendering strategies and minimizing asset load times, improving user experience.
- Performed thorough testing and debugging of **React** applications using **Jest** and **React Testing Library** to guarantee functionality, reliability, and security.
- Collaborated with product managers and designers to translate requirements into technical specifications and user stories within an **Agile** framework.
- Developed and maintained comprehensive technical documentation, including design documents and API specifications for frontend components.
- Containerized frontend build processes using **Docker**, enabling consistent development and deployment environments.

SKILLS

Frontend Frameworks – React, Redux, MobX, Next.js

Core Web Technologies – HTML5, CSS3, JavaScript, TypeScript

Testing – Jest, React Testing Library, Enzyme

Backend Integration – REST APIs, Web Services, Spring Boot

Databases – SQL Server, PostgreSQL, MySQL, Oracle

DevOps & CI/CD – GitHub, Jenkins, Docker, Kubernetes

Programming Concepts – OOP, Microservices, Distributed Systems

PROJECTS

Customer Support Portal Enhancement (HCL Technologies)

- Enhanced a customer-facing support portal by integrating **React** components for an improved user interface, contributing to a 15% reduction in user-reported navigation issues.
- Developed RESTful API integrations using **Java Spring Boot** to fetch and display dynamic knowledge base articles, enhancing the self-service capabilities for enterprise clients.
- Implemented client-side data validation and error handling for user input forms, ensuring data integrity and a smoother user experience for support ticket submissions.

Interactive Knowledge Base Dashboard (MSc Project)

- Developed an interactive dashboard using **React** to visualize knowledge base usage statistics and search query effectiveness for a simulated enterprise environment.
- Designed and implemented data models and queries against a PostgreSQL database to support the dashboard's reporting requirements, focusing on efficient data retrieval.
- Utilized **Power BI** to create supplementary analytical reports on content engagement, providing stakeholders with insights into knowledge base performance.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin

Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India

2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
