PROFESSIONAL EXPERIENCE

Software Engineer — HCL Technologies, Chennai, India

Sep 2021 – Jan 2025

- Designed and implemented **Java Spring Boot** REST APIs for cross-service data exchange, incorporating request validation and circuit-breaker patterns to enhance system resilience.
- Developed and maintained **Hibernate** ORM mappings and JPA entities for complex data models, ensuring efficient and reliable data persistence across multiple enterprise applications.
- Wrote comprehensive unit tests using **JUnit** and Mockito, achieving over 85% code coverage for new Java features and ensuring code quality and maintainability.
- Coordinated project delivery timelines and technical quality for infrastructure components, ensuring adherence to internal management systems and client specifications.
- Produced detailed engineering design reports and calculations for underground structures, contributing to contract deliverables for major infrastructure projects.
- Mentored and guided junior engineers and technicians on design tasks, fostering skill development and ensuring successful project team integration and output.
- Containerized Java applications using **Docker** and deployed them to an **AWS EC2** environment, managing configuration and basic resource allocation for predictable rollouts.

SKILLS

Programming Languages – Java, Python, SQL, R

Frameworks & Libraries – Spring Boot, Hibernate, JPA, pandas, NumPy, scikit-learn, JUnit, Mockito

Cloud & DevOps – AWS (EC2, S3, Lambda, CloudWatch), Docker, Jenkins, Git

Databases – PostgreSQL, MySQL, Oracle

Tools & Technologies – Splunk, Dynatrace, Jira, Confluence, Linux, Shell Scripting

Data Analytics & BI – Power BI, Tableau, DAX, Power Query, Data Modelling, Data Warehousing

PROJECTS

Enterprise Java Application Modernization (HCL Technologies)

- Re-architected core Java services using **Spring Boot** and **Hibernate** to improve performance and maintainability, replacing legacy components and reducing technical debt.
- Developed robust **REST APIs** for integration with enterprise systems, handling data transformation and ensuring seamless communication between disparate applications.
- Implemented comprehensive logging and monitoring using **Splunk** and **Dynatrace**, enabling proactive issue detection and reducing incident resolution times by approximately 20%.

Python-based ETL and Automation Suite (HCL Technologies)

- Developed Python scripts for automating data extraction, transformation, and loading (ETL) processes from multiple relational databases (**PostgreSQL**, **MySQL**) into a central data warehouse.
- Created scheduled Python reports and data validation routines using **pandas**, improving data accuracy and providing timely operational insights to business stakeholders.
- Managed and versioned Python scripts using **Git**, integrating with **Jenkins** for automated deployment and execution of data pipelines.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin

Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India

2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
