PROFESSIONAL EXPERIENCE

Software Engineer — HCL Technologies, Chennai, India

Sep 2021 – Jan 2025

- Delivered on-site technical service, including installation and corrective maintenance for advanced medical equipment, ensuring minimal disruption to healthcare facility operations.
- Managed customer relationships proactively, escalating technical and satisfaction concerns to internal teams to maintain high service standards and customer trust.
- Provided customer training sessions focused on the safe and effective use of complex medical devices, enhancing user proficiency and adherence to operational guidelines.
- Maintained accurate documentation and reporting within customer service management systems, ensuring compliance with regulatory requirements and internal data integrity standards.
- Contributed to commercial growth by identifying service opportunities and potential upgrades during field service visits, aligning with business objectives.
- Ensured adherence to Key Performance Indicators (KPIs) and strict Medical Device Regulations (MDR) throughout all service delivery activities.
- Containerized diagnostic tools and remote support utilities using **Docker** for streamlined deployment across diverse customer environments on **AWS EC2**.

SKILLS

Field Service – Technical Support, Installation, Maintenance, Servicing, Customer Training, Documentation, Reporting, Relationship Management

IT & Networking – Windows Operating Systems, System Configuration, Networking

Medical Devices – Medical Device Regulations (MDR)

Cloud & DevOps – Docker, AWS EC2

General Skills – Communication Skills, Problem-Solving, Adaptability, Travel Flexibility

PROJECTS

Medical Equipment Installation & Calibration Service

- Designed and executed installation protocols for complex medical devices in hospital settings, ensuring precise calibration and adherence to manufacturer specifications.
- Developed a standardized checklist for pre-installation site assessments, reducing potential setup issues by **30%** and improving first-time installation success rates.
- Provided initial user training to clinical staff on device operation and basic troubleshooting, ensuring a smooth handover and immediate operational readiness.

Remote Diagnostics Tooling Automation

- Developed Python scripts to automate initial diagnostic data collection from remote medical devices, reducing manual data gathering time by **45%**.
- Containerized diagnostic scripts using **Docker** for easy deployment to field engineers' laptops, enabling consistent execution across different operating systems.
- Integrated diagnostic output with a centralized logging system for faster root cause analysis of recurring technical issues.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin

Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India

2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
