PROFESSIONAL EXPERIENCE

Software Engineer — HCL Technologies, Chennai, India

Sep 2021 – Jan 2025

- Analyzed client data for audit assignments using **SQL** and **Python scripting**, identifying key trends and operational anomalies that informed stakeholder recommendations.
- Drafted detailed audit reports and financial statements, incorporating practical insights derived from data analysis to enhance client operations and compliance.
- Collaborated with senior accountants and partners on audit engagements, ensuring timely communication of significant issues and progress updates.
- Supported cross-functional teams including tax and corporate finance professionals to facilitate comprehensive audit processes and client service delivery.
- Managed audit timelines and budgets effectively, ensuring adherence to strict quality standards and regulatory compliance requirements.
- Developed **Python scripts** to automate data extraction and transformation tasks for financial reporting, reducing manual processing time by approximately **30%**.
- Containerized a Java Spring Boot application using **Docker** and deployed it to an **AWS EC2** instance, improving deployment consistency across development and production environments.

SKILLS

Audit & Assurance – Financial Statement Drafting, Audit Reporting, Data Analysis, Client Relationship Management, Regulatory Compliance, Business Insights

Programming Languages – Java, Python, SQL, R

Frameworks & Libraries – Spring Boot, pandas, NumPy, scikit-learn

Databases – PostgreSQL, MySQL, Oracle

Cloud & DevOps – AWS (EC2, S3, Lambda, CloudWatch), Docker, Jenkins, Git

BI & Data Visualization – Power BI, Tableau, DAX, Power Query

Tools & Methodologies – Jira, Confluence, Agile, Scrum

PROJECTS

Financial Operations Dashboard Enhancement (HCL Technologies)

- Developed **Java Spring Boot** microservices to ingest and process transaction data, enhancing the real-time monitoring capabilities of a payments operations dashboard.
- Implemented **SQL** queries against a **PostgreSQL** database to validate transaction flows and identify reconciliation discrepancies, improving data accuracy for the financial services client.
- Authored comprehensive technical documentation and runbooks for the enhanced dashboard features, facilitating smoother knowledge transfer to operations teams.

Automated Reporting Pipeline (HCL Technologies)

- Built an automated reporting pipeline using **Python** and **pandas** to extract data from multiple enterprise systems (ERP, CRM) and generate weekly summary reports.
- Integrated the Python scripts with **Jenkins** for scheduled execution, ensuring consistent delivery of reports to business stakeholders and reducing manual effort by an estimated **25%**.
- Developed **Power BI** dashboards to visualize key performance indicators from the generated reports, providing actionable business insights to management.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin

Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India

2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
