PROFESSIONAL EXPERIENCE

Software Engineer — HCL Technologies, Chennai, India

Sep 2021 – Jan 2025

- Designed and executed practical trials for new meat and plant-based ingredient formulations, meticulously documenting results in **OneNote** and **SharePoint** to support product development.
- Collaborated with experienced Project Managers to refine trial designs, identifying potential hurdles and proposing process improvements that contributed to technical advances in **product innovation**.
- Generated and interpreted experimental data from laboratory and pilot plant tests, translating complex findings into clear, actionable insights for the **Science & Innovation team**.
- Developed expertise in process and analytical methodologies, preparing and updating **specifications and SOPs** for new food products and manufacturing techniques.
- Evaluated new ingredients and materials for their application in food products, assessing their impact on taste, texture, and shelf-life to enhance **S&I; capabilities**.
- Captured key learnings and feedback from trials, contributing to internal communications that improved the overall **innovation process** and knowledge transfer within the team.
- Managed and troubleshooted issues with standard laboratory and pilot plant equipment, ensuring operational readiness and adherence to **food safety and hygiene practices**.

SKILLS

Food Science & Product Development – Ingredient Evaluation, Product Formulation, Process Engineering, Analytical Methodologies, Specifications, SOPs, Food Safety, GMP, Hygiene Practices

Data Management & Analysis – Data Interpretation, Record Keeping, SharePoint, OneNote, Microsoft Office Suite, Mathematical Concepts, Percentages, Basic Algebra

Project Management & Collaboration – Trial Design, Timeline Management, Risk Assessment, Cross-functional Collaboration, Stakeholder Relationship Building, Knowledge Transfer, Presentation Skills

Laboratory & Pilot Plant Operations – Experimental Execution, Equipment Operation, Troubleshooting, Material Handling (up to 20kg)

Core Technologies – Python, Java, SQL, Spring Boot, AWS, Docker, Linux, Git, Jenkins, Jira, Confluence, PostgreSQL, MySQL, Oracle, Power BI, Tableau, R/RStudio, pandas, scikit-learn

PROJECTS

New Ingredient Application Trials (HCL Technologies)

- Designed and conducted trials for novel ingredient applications within a simulated food production environment, focusing on process optimisation and quality assessment.
- Analyzed performance data using **Python** and **pandas** to identify key parameters affecting product stability and recommended adjustments to formulation, reducing trial iteration time by **18%**.
- Documented all experimental procedures, results, and conclusions in detailed reports, which were presented to internal stakeholders to inform future R&D; strategies.

Food Product Data Analysis & Dashboarding (MSc Project)

- Developed a comprehensive dataset by integrating information from multiple sources related to food product trials and consumer feedback.
- Built interactive **Power BI** dashboards to visualise key performance indicators, sensory panel results, and production efficiency metrics for a hypothetical new product line.
- Applied statistical analysis techniques in **R** to identify correlations between ingredient variations and consumer preference scores, supporting data-driven decision-making.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin

Feb 2026

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
