PROFESSIONAL EXPERIENCE

Software Engineer — HCL Technologies, Chennai, India

Sep 2021 – Jan 2025

- Designed and implemented **Java** and **Kotlin** features for a secure, high-performance Android application, contributing to a significant modernisation effort.
- Contributed to architectural decisions for modern Android development, focusing on **scalability** and **maintainability** of the application.
- Integrated the Android application with external services, **SDKs**, and **hardware features**, ensuring seamless functionality.
- Supported software quality through rigorous **automated testing**, application **performance optimisation**, and **CI/CD automation**.
- Collaborated effectively with cross-functional teams, including QA and product, participating in **code reviews** and **mentoring** junior developers.
- Assisted in **incident response** and **root-cause analysis** for production issues, ensuring application stability.
- Containerised Android application build processes using **Docker**, streamlining deployment pipelines on **AWS**.

SKILLS

Mobile Development – Android, Java, Kotlin, SDKs, Hardware Features, Secure Storage, Networking

Architecture & Design – Scalability, Maintainability, Legacy System Modernisation, Architectural Patterns, Secure Coding Standards

Development Practices – CI/CD Automation, Automated Testing, Performance Optimisation, Code Reviews, Agile Methodologies

Cloud & DevOps – AWS, Docker, Incident Response, Root Cause Analysis

Languages – Java, Kotlin, Python, SQL

PROJECTS

Secure Android Application Modernisation

- Led the refactoring of a legacy Android application into a scalable, modular architecture using **Java** and **Kotlin**.
- Implemented new features and security enhancements, including secure storage integration and robust networking capabilities.
- Developed comprehensive unit and integration tests, achieving over 85% code coverage for critical modules.

Android CI/CD and Performance Pipeline

- Established a **CI/CD pipeline** using Jenkins and Docker to automate builds, testing, and deployments to AWS.
- Integrated performance monitoring tools to identify and address bottlenecks, reducing average screen load times by **18%**.
- Wrote scripts for automated deployment to test environments, facilitating faster release cycles.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin

Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India

2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
