PROFESSIONAL EXPERIENCE

Software Engineer — HCL Technologies, Chennai, India

Sep 2021 – Jan 2025

- Collected and analyzed **manufacturing and inspection data** for product quality assurance, supporting day-to-day operations on the production floor.
- Managed **nonconformance events (NCEs) and Nonconforming Material Reports (NCMRs)**, collaborating with cross-functional teams to facilitate investigations and material disposition.
- Executed routine line audits to verify system compliance and supported the implementation of **corrective and preventative actions (CAPAs)**, ensuring ongoing operational effectiveness.
- Reviewed and maintained quality assurance procedures and protocols, ensuring manufacturing processes adhered to **GMP, GLP, ISO, FDA, and MDSAP** requirements.
- Interpreted **engineering drawings and specifications** to perform detailed inspections, promptly communicating any process or safety concerns to management.
- Assisted in the development and continuous improvement of **quality control methods and procedures**, contributing to enhanced product integrity.
- Supported **internal and external audits** by preparing and organizing quality documentation, ensuring readiness for regulatory scrutiny.

SKILLS

Quality Assurance – GMP, GLP, ISO, FDA, MDSAP, Nonconformance Events (NCEs), Nonconforming Material Reports (NCMRs), CAPA, Audits, Quality Documentation, Line Audits

Manufacturing Support – Inspection Methods, Production Quality, Specifications, Engineering Drawings, Data Collection, Process Controls, Environmental Controls

Tools & Technologies – Jira, Confluence, Splunk, Dynatrace, Jenkins, Git, Linux Shell Scripting

Data Analysis & Reporting – SQL, Python Scripting, Data Validation, ETL, Scheduled Reporting, Power BI, Tableau, DAX, Power Query

Programming Languages – Java, Spring Boot, Python, R, SQL

Cloud Platforms – AWS (EC2, S3, Lambda, CloudWatch)

Containerization – Docker

PROJECTS

Production Support Dashboard Enhancement (HCL Technologies)

- Developed and maintained **Java Spring Boot REST APIs** to ingest and process operational data from various enterprise systems for a financial-services client's dashboard.
- Implemented **Python scripts** for automated data validation and ETL tasks, ensuring data integrity for transaction monitoring workflows and reconciliation processes.
- Wrote **SQL queries** against PostgreSQL and Oracle databases to extract and aggregate data for operational reporting and to support change-control management for system updates.

MSc Data Analytics Applied Project (NCI)

- Designed and built interactive **Power BI dashboards** to visualize key performance indicators and analytical findings for stakeholders, utilizing **DAX measures** and **Power Query** for data transformation.
- Performed **statistical analysis and hypothesis testing** using R and Python (pandas, NumPy) on various datasets, including applying **scikit-learn** for fundamental machine learning tasks.
- Developed **data models** and executed **ETL processes** to prepare data for analysis and reporting, demonstrating a comprehensive understanding of business intelligence principles.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin

Feb 2026

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
