PROFESSIONAL EXPERIENCE

Software Engineer — HCL Technologies, Chennai, India

Sep 2021 – Jan 2025

- Proactively monitored network health and traffic patterns using **Splunk** and **CloudWatch** to preemptively identify and address potential performance degradations across enterprise systems.
- Managed and resolved network incidents and customer-reported service issues within defined SLAs, ensuring minimal disruption to operations.
- Coordinated with external vendors and internal teams to troubleshoot and resolve complex network and customer service challenges, maintaining high availability.
- Authored detailed reports on network performance, availability, and infrastructure design, recommending actionable improvements for routing and resource allocation.
- Executed incident management protocols, including diagnosis and resolution, providing regular updates to ticketing systems to track progress against OLAs and KPIs.
- Supported hardware and firmware installation, configuration, and updates, including patch management for network infrastructure components.
- Developed Python scripts to automate routine data collection and analysis tasks, enhancing the efficiency of network performance reporting by approximately **20%**.

SKILLS

Network Monitoring Tools – Splunk, CloudWatch, Dynatrace

Network Equipment – Juniper, Ciena, Cisco

Networking Fundamentals – TCP/IP, LAN, WAN, IP/MPLS, Routing Principles

Cloud Connectivity – AWS Direct Connect, Azure ExpressRoute

Operating Systems – Linux, VMware

Automation – Python, Ansible

Trouble Ticketing Systems – Jira

PROJECTS

Network Infrastructure Monitoring and Automation

- Developed Python scripts to automate the collection of network performance metrics from devices across the infrastructure, reducing manual data gathering time by **35%**.
- Integrated monitoring data from various sources into a centralized dashboard for real-time analysis of network health and traffic flow, aiding in faster incident detection.
- Configured alerts within **Splunk** for critical network events, ensuring timely notification for P1/P2 incidents and reducing response times.

Customer Connectivity Service Enhancement

- Supported the troubleshooting and resolution of customer-facing trouble tickets related to Cloud Connect, Service Exchange, and IP Bandwidth services.
- Collaborated with fiber providers and equipment vendors to diagnose and fix network issues impacting customer service delivery, ensuring adherence to SLAs.
- Assisted in the configuration and maintenance of network devices to support new customer connectivity requirements.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin

Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India

2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
