PROFESSIONAL EXPERIENCE

Software Engineer — HCL Technologies, Chennai, India

Sep 2021 – Jan 2025

- Provided comprehensive remote and onsite IT support to approximately 250 employees across multiple countries, resolving hardware, software, and system issues via the ticketing system, achieving an average ticket closure time of **4 hours**.
- Administered and monitored enterprise IT infrastructure including networking, firewalls, and video conferencing systems, ensuring **99.5%** uptime for critical services.
- Managed user accounts and permissions within **Okta** and **Active Directory**, enforcing security policies and configuring multi-factor authentication (MFA) for **250+** users.
- Developed Python scripts to automate IT asset inventory management and user lifecycle processes, reducing manual effort by an estimated **30%**.
- Maintained and updated comprehensive IT documentation, including system configurations, escalation processes, and user guides, improving knowledge sharing within the IT Operations team.
- Contributed to the planning and implementation of IT projects focused on automation and security enhancements, ensuring alignment with company objectives.
- Ensured GDPR and information security compliance across all IT operations, implementing best practices for data protection and system access.

SKILLS

Operating Systems – macOS, Windows, Linux

Cloud Platforms – AWS, Google Cloud

Identity Management – Okta, Active Directory, Google Workspace, Microsoft 365

Device Management – Intune, Jamf, Google Workspace

Networking – VPNs, Firewalls, Wi-Fi, VLANs, routing, switching

IT Support Tools – Ticketing Systems, Jira Service Desk, ServiceNow

Scripting – Python, Shell Scripting

PROJECTS

IT Operations Automation Initiative

- Developed a suite of **Python** scripts to automate the provisioning and de-provisioning of user accounts across **Okta** and **Google Workspace**, streamlining the onboarding/offboarding process.
- Implemented automated asset tracking by integrating **Jira Service Desk** with inventory management tools, providing real-time visibility into IT assets for approximately **250** employees.
- Created comprehensive runbooks and documentation for common IT support tasks, reducing average resolution time for recurring issues by **15%**.

Infrastructure Monitoring and Security Enhancement

- Configured and maintained monitoring dashboards using **AWS CloudWatch** and **Splunk** to track the performance and availability of critical IT infrastructure components.
- Assisted in the deployment and configuration of network security measures, including **firewall** rules and **VPN** access for remote employees, ensuring data integrity.
- Performed regular security audits and vulnerability assessments to identify and mitigate potential risks to the IT environment.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin

Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India

2021

CERTIFICATIONS
