PROFESSIONAL EXPERIENCE

Software Engineer — HCL Technologies, Chennai, India

Sep 2021 – Jan 2025

- Supported user onboarding and offboarding processes, managing account provisioning and de-provisioning for approximately **50 new hires** per quarter.
- Administered user accounts, permissions, and group policies within **Active Directory** and **Entra ID**, ensuring adherence to least privilege principles.
- Assisted with **Microsoft 365 administration**, including managing mailboxes, assigning licenses, and configuring access controls for a user base of over **2,500**.
- Provided end-user support for laptops, desktops, and mobile devices, resolving an average of **15-20 tickets** daily related to hardware, software, and connectivity.
- Supported device setup, provisioning, and configuration using **Intune** and **Autopilot** for new employee hardware deployments.
- Performed routine system checks, updates, and maintenance activities on **Windows servers** and core business systems, contributing to operational stability.
- Maintained accurate **IT documentation**, including asset registers and user guides, improving knowledge sharing across the internal systems team.

SKILLS

System Administration – Active Directory, Entra ID, Microsoft 365, Intune, Autopilot, Windows Server, Linux, User Account Management, Access Control, Device Management, IT Security Policies

IT Support – End-User Support, Ticketing Systems, Hardware Troubleshooting, Software Troubleshooting, Connectivity Issues, Escalation Procedures, IT Documentation

Cloud Platforms – AWS (EC2, S3, Lambda, CloudWatch)

Programming & Scripting – Python, Java, SQL, Shell Scripting

DevOps & CI/CD – Jenkins, Git, Docker

Databases – PostgreSQL, MySQL, Oracle

PROJECTS

Internal IT Systems Support Enhancement

- Developed Python scripts to automate the generation of monthly IT asset reports, reducing manual effort by **8 hours per month**.
- Refined the process for user access reviews in Active Directory, implementing a more structured approach that decreased the time to complete reviews by **30%**.
- Documented standard operating procedures for common IT support requests, creating a knowledge base that helped onboard new support team members more efficiently.

Enterprise Application Monitoring and Automation

- Configured and maintained monitoring dashboards using **Splunk** and **Dynatrace** for critical enterprise applications, improving incident detection times.
- Automated routine system health checks and log analysis using Python scripting and shell scripts on Linux environments, reducing manual checks by **~60%**.
- Assisted in managing change control processes for application updates and configuration changes, coordinating with cross-functional teams for successful deployments.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin

Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India

2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
