PROFESSIONAL EXPERIENCE

Software Engineer — HCL Technologies, Chennai, India

Sep 2021 – Jan 2025

- Developed and implemented new features for consumer-facing client applications using **C#**, adhering to established architectures and coding standards.
- Contributed to the maintenance and enhancement of components within the **Dolby Client Applications portfolio**, ensuring code quality and reliability.
- Authored clean, maintainable, and well-tested **C#** code, progressively taking ownership of features and components under senior engineer guidance.
- Participated in code reviews, applying constructive feedback to enhance code quality and refine technical skills in **C#** development.
- Collaborated with QA, product management, and design teams to deliver reliable features and releases for client applications.
- Integrated features into existing **CI/CD pipelines** and automated testing frameworks as part of daily development activities.
- Troubleshoot and resolved issues across application and platform layers, contributing to the overall stability of consumer-facing software.

SKILLS

Languages – C#, C++, Java, Python, SQL, R

Frameworks/Platforms – UWP, WinUI, Spring Boot, .NET

Tools & Technologies – Git, Jenkins, Docker, Jira, Confluence, Splunk, Dynatrace, AWS, PostgreSQL, MySQL, Oracle

Data Analytics & BI – Power BI, Tableau, DAX, Power Query, pandas, NumPy, scikit-learn

Methodologies – Agile, Scrum

PROJECTS

Desktop Application Feature Development (HCL Technologies)

- Engineered new user interface elements and backend logic for a desktop application using **Java Spring Boot**, enhancing user experience for enterprise clients.
- Implemented RESTful APIs for inter-service communication, ensuring seamless data flow between application modules and improving system integration.
- Wrote unit tests using **JUnit**, achieving over 85% code coverage for critical application components and ensuring stability during updates.

Client Onboarding Tooling for Enterprise Systems (HCL Technologies)

- Developed a Python-based CLI tool to automate configuration checks for new client deployments on enterprise systems, reducing manual setup time by **~40%**.
- Integrated the tool with existing REST APIs to validate client-specific configurations against platform requirements, catching common setup errors early.
- Documented the tool's usage and common troubleshooting steps, creating a knowledge base that accelerated the onboarding process for new customers.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin

Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India

2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
