PROFESSIONAL EXPERIENCE

Software Engineer — HCL Technologies, Chennai, India

Sep 2021 – Jan 2025

- Assisted in monitoring production processes, ensuring adherence to **SOPs** and **GMP requirements**, and populating **batch records** in real-time for manufacturing operations.
- Managed receipt, inspection, and documentation of incoming materials, verifying compliance with **GMP standards** and technical specifications, and ensuring proper staging and traceability.
- Supported process development and validation activities by assisting in data collection, analysis, and interpretation under senior scientists' guidance, contributing to **CAPA initiatives**.
- Conducted routine checks on production equipment, providing feedback to senior scientists regarding observed deviations, and supported **material handling** and **warehouse management**.
- Maintained precise and compliant documentation for all activities, including **batch records**, **warehouse logs**, and **technical reports**, adhering to ALCOA+ principles.
- Prepared and managed **Consumable Requirement Specification (CRS)** documentation and **Material Requirement Specification (MRS)**, supporting compliance with controlled substance handling procedures.
- Containerised Python-based data processing scripts using **Docker** and deployed them to **AWS Lambda** for automated reporting tasks, improving data processing efficiency by **~15%**.

SKILLS

Pharmaceutical Manufacturing – GMP, SOPs, Batch Records, Process Monitoring, Technology Transfer, Material Handling, Warehousing, EHS

Data & Documentation – ALCOA+, Data Integrity, Technical Reports, Documentation Compliance, Spreadsheets, Data Entry

Process Development & Support – Process Optimisation, R&D; Support, Risk Assessment, CAPA, Troubleshooting, Laboratory Experiments

Python & Scripting – Python, pandas, NumPy, Scripting, Automation, Data Pipelines, ETL

Cloud & Containerization – AWS (EC2, S3, Lambda, CloudWatch), Docker

Databases & Querying – SQL, PostgreSQL, MySQL, Oracle

General Software Engineering – Java, Spring Boot, REST APIs, Git, Jenkins, Jira, Confluence, Linux

PROJECTS

Automated GMP Documentation System (HCL Technologies)

- Developed a Python application to automate the generation of **Consumable Requirement Specification (CRS)** and **Material Requirement Specification (MRS)** documents, reducing manual effort by **~40%**.
- Integrated with **PostgreSQL** database to pull material data and specifications, ensuring accuracy and compliance with **GMP standards** for controlled substance handling.
- Designed a simple web interface using **Flask** for users to input key parameters, streamlining the document creation process and improving data entry consistency.

Production Monitoring & Alerting Dashboard (HCL Technologies)

- Built a Python-based ETL pipeline to ingest logs from **Splunk** and **CloudWatch**, transforming them into a structured format for analysis.
- Developed a dashboard using **Power BI** to visualize key production metrics and operational alerts, enabling faster identification of process deviations for a financial-services client.
- Wrote **SQL** queries against **Oracle** and **PostgreSQL** databases to validate transaction data and support reconciliation workflows for the operations team.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin

Feb 2026

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
