PROFESSIONAL EXPERIENCE

Software Engineer — HCL Technologies, Chennai, India

Sep 2021 – Jan 2025

- Developed **Java Spring Boot** microservices to orchestrate LLM-powered agents, integrating with **OpenAI specs** and **MCP** for tool execution, function calling, and retries.
- Built **REST APIs** and event-driven pipelines for agent requests, enabling **context assembly** via **RAG** and streaming results to downstream services.
- Implemented tool execution layers and **safety checks** for agent behavior, managing configuration, secrets, and access control with a **least-privilege design**.
- Integrated with **GitHub webhooks** and Actions for developer-focused automations, processing roughly **1,500 events** per day for PR review bots.
- Added observability by instrumenting services with **logs, metrics, and traces**, creating dashboards in **Datadog** for reliability and performance monitoring.
- Wrote comprehensive **unit and integration tests** for agent services, achieving over **85% code coverage** and automating builds and deployments with **Jenkins**.
- Containerized agent services using **Docker** and deployed them to an **AWS EKS** cluster, managing configuration via **Helm charts**.

SKILLS

Backend Development – Java, Spring Boot, REST APIs, Microservices, Hibernate, JPA, JUnit, Mockito, Maven

AI/ML & Agents – LLMs, OpenAI, Claude, MCP, RAG, Embeddings, Agentic Workflows, Function Calling, Prompt Engineering

Cloud & DevOps – AWS, EKS, Docker, Kubernetes, Jenkins, CI/CD, Git, GitHub Actions, Helm

Data & Messaging – SQL, PostgreSQL, Kafka, Event-Driven Architecture, Data Modeling

Observability & Tools – Datadog, Splunk, Dynatrace, Jira, Confluence, Linux, Shell Scripting

PROJECTS

LLM-Powered Agent Orchestration Service (HCL Technologies)

- Engineered a **Java Spring Boot** service to manage LLM agent workflows, orchestrating calls to **OpenAI models** and handling tool integrations.
- Implemented a robust retry mechanism and **guardrails** for agent execution, processing approximately **2,000 user requests** daily with a 99.7% success rate.
- Developed comprehensive API contracts and documentation for the agent service, ensuring clear integration points with other internal systems.

Automated GitHub PR Review Bot (MSc Applied Project)

- Built a **Python** application that integrates with **GitHub APIs** to automatically comment on pull requests based on code analysis and predefined rules.
- Implemented natural language processing techniques to parse PR descriptions and code changes, reducing manual review time for a sample dataset by **30%**.
- Deployed the bot using **Docker** on a small cloud instance, monitoring its performance and error rates through basic logging.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin

Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India

2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
