PROFESSIONAL EXPERIENCE

Software Engineer — HCL Technologies, Chennai, India

Sep 2021 – Jan 2025

- Administered and maintained **Windows and Linux servers**, **VMware** virtual environments, and associated storage area networks (SAN) as part of the core infrastructure team.
- Supported and enhanced **Microsoft 365** services, including **Exchange Online** and **Microsoft Teams**, ensuring high availability and user satisfaction for enterprise operations.
- Managed and configured **Azure AD / Entra ID** for identity and access management across cloud and on-premise resources, implementing security best practices.
- Contributed to the planning, testing, and deployment of **security patches** and operating system upgrades across a large fleet of servers, mitigating potential vulnerabilities.
- Participated in the configuration and management of mobile devices using **Microsoft Intune**, ensuring compliance with organizational security policies.
- Supported procurement activities by drafting and evaluating tenders for ICT services and hardware, working closely with vendor management.
- Contributed to the development of infrastructure documentation and technical standards, enhancing knowledge sharing and operational consistency within the ICT team.

SKILLS

Cloud Platforms – Microsoft Azure, AWS

Microsoft Cloud – Microsoft 365, Office 365, Azure AD, Entra ID, Exchange Online, Microsoft Teams, Microsoft Intune

Systems Administration – Windows Server, Linux Servers, VMware, Active Directory, DHCP, DNS, SAN technologies

Networking – Juniper, Dell, Cisco devices, Firewalls, Web filtering, Application filtering

Backup & Recovery – Commvault, Veeam

IT Service Management – ITIL v3/2011, ITIL v4, ICT Ticketing Systems, Service Delivery

Security – IPS/IDS, PAM, IAM, SIEM, Syslog technologies, Security hardening

PROJECTS

Enterprise Cloud Infrastructure Enhancement (HCL Technologies)

- Migrated and containerized several internal Java Spring Boot applications to **AWS EC2 instances** using **Docker**, improving deployment consistency and resource utilization.
- Automated routine server maintenance tasks, including log rotation and performance monitoring script execution, using **Python** and **Linux shell scripting**.
- Configured **Jenkins pipelines** for automated builds and deployments of Java applications, reducing manual deployment time by approximately **30%**.

Microsoft 365 Tenant Configuration & Security Hardening (HCL Technologies)

- Assisted in the configuration of **Microsoft 365** services, focusing on **Exchange Online** mail flow rules and **Microsoft Teams** channel management for a financial services client.
- Implemented baseline security policies within **Azure AD / Entra ID**, including multi-factor authentication requirements and conditional access policies.
- Developed **PowerShell scripts** to audit user permissions and license assignments within the M365 environment, identifying ~15% of inactive accounts for review.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin

Feb 2026

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
