PROFESSIONAL EXPERIENCE

Software Engineer — HCL Technologies, Chennai, India

Sep 2021 – Jan 2025

- Supported and monitored enterprise applications using **Splunk** and **Dynatrace**, managing SLAs and responding to P1/P2 incidents.
- Automated data extraction and transformation tasks using **Python scripting**, generating scheduled reports for operational teams.
- Executed ad-hoc queries and performed data validation on **PostgreSQL** and **MySQL** databases for reporting and analysis.
- Developed and maintained **Java Spring Boot** REST APIs, implementing new features and resolving defects in existing services.
- Managed system configurations and coordinated User Acceptance Testing (UAT) for enterprise business systems, ensuring smooth change management.
- Collaborated with cross-functional operations teams to gather requirements for a financial-services dashboard, supporting UAT and post-implementation triage.
- Containerized applications using **Docker** and deployed them to **AWS EC2** instances, managing basic configurations and deployments.

SKILLS

Languages – Java, Python, SQL, R

Frameworks/Libraries – Spring Boot, pandas, NumPy, scikit-learn

Databases – PostgreSQL, MySQL, Oracle

Cloud Platforms – AWS (EC2, S3, Lambda, CloudWatch)

Tools & Technologies – Docker, Jenkins, Git, Jira, Confluence, Splunk, Dynatrace, Power BI, Tableau

Methodologies – Agile, Scrum

PROJECTS

Financial Operations Dashboard Enhancement

- Enhanced a payments operations dashboard for a financial-services client, focusing on improving transaction monitoring and operational alerting for failed payment messages.
- Developed Python scripts to automate data ingestion and processing for the dashboard, ensuring timely updates and data integrity across disparate sources.
- Collaborated with business analysts to refine reporting features and implement audit trail enhancements, supporting regulatory awareness within the production environment.

Enterprise Systems Integration Automation

- Automated cross-system data flows between ERP modules and operational platforms using Python and direct database integrations (PostgreSQL, Oracle).
- Developed REST APIs in Java Spring Boot to facilitate communication between interconnected enterprise systems, improving data consistency.
- Managed change control processes for system configuration updates, coordinating UAT and providing post-go-live support for integrated business applications.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin

Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India

2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
