PROFESSIONAL EXPERIENCE

Software Engineer — HCL Technologies, Chennai, India

Sep 2021 – Jan 2025

- Developed and deployed **Java Spring Boot** microservices to handle core business logic for enterprise applications, processing approximately **800 requests per minute**.
- Implemented robust **Hibernate** ORM solutions to manage complex data persistence layers, ensuring data integrity across multiple relational databases.
- Designed and refactored **Java EE** application components, incorporating **JUnit** tests and **Mockito** mocks to achieve over **90% code coverage** for critical modules.
- Participated in daily **Agile ceremonies**, contributing to sprint planning, technical estimations, and detailed code reviews for team-wide quality assurance.
- Managed and optimized **PostgreSQL** database schemas and queries to support new feature development, improving data retrieval efficiency by **18%**.
- Containerized **Java applications** using **Docker**, defining resource constraints and network configurations for deployment onto an **AWS EC2** environment.
- Authored comprehensive **production runbooks** and incident response documentation for a suite of financial services applications, reducing average resolution time by **22%**.

SKILLS

Languages – Java, Python, SQL, R, HTML, CSS

Frameworks/Libraries – Spring Boot, Hibernate, Spring MVC, JUnit, Mockito, pandas, NumPy, scikit-learn, FastAPI

Databases – PostgreSQL, MySQL, Oracle

Cloud/DevOps – AWS (EC2, S3, Lambda, CloudWatch), Docker, Jenkins, Git

Tools/Platforms – Jira, Confluence, Splunk, Dynatrace, Power BI, Tableau, RStudio

Methodologies – Agile, Scrum, CI/CD

PROJECTS

Enterprise Java Payments Dashboard Refactor

- Re-architected a legacy Java payments operations dashboard using **Spring Boot** and **Hibernate**, enhancing performance for transaction monitoring features.
- Developed RESTful APIs to integrate with upstream and downstream financial messaging systems, supporting **real-time data ingestion** for operational alerts.
- Implemented granular logging and monitoring using **Splunk**, enabling proactive identification of potential issues within the transaction processing workflows.

Automated Data Pipeline for Financial Reporting

- Engineered a Python-based ETL pipeline to extract, transform, and load data from various operational databases into a central data mart.
- Scripted automated report generation using **pandas** and scheduled execution via **Cron** jobs on Linux, delivering weekly reconciliation summaries.
- Collaborated with business analysts to gather reporting requirements, ensuring the accuracy and relevance of generated financial summaries.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin

Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India

2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
