PROFESSIONAL EXPERIENCE

Software Engineer — HCL Technologies, Chennai, India

Sep 2021 – Jan 2025

- Administered user access, permissions, and security settings for the enterprise ERP platform, ensuring adherence to compliance and data protection requirements.
- Managed and optimised on-premise and cloud-based infrastructure, including servers, storage, and backup systems, to maintain operational continuity.
- Developed and maintained **Power BI** dashboards and reports for finance, operations, and leadership, providing actionable insights into business performance.
- Built and optimised **reporting pipelines** connected directly to live business data, ensuring accuracy, governance, and security across all BI outputs.
- Supported field teams and site offices with their technology needs, assisting with **time-tracking** and **job costing systems** to support operational workflows.
- Contributed to system upgrade and digital transformation initiatives by documenting processes, training materials, and technical procedures for IT governance.
- Collaborated with internal teams and external partners to enhance **ERP platform functionality**, overseeing updates, integrations, and customisations.

SKILLS

ERP Systems – ERP platform administration, ERP ecosystems, integrations, workflows, customisations, master data management, job costing, production reporting, procurement workflows

Business Intelligence – Power BI, dashboards, reporting pipelines, DAX, data modelling, Power Query, Tableau, business intelligence

Infrastructure & Operations – Systems administration, on-premise infrastructure, cloud-based infrastructure, servers, networks, storage, backups, Windows Server, Microsoft 365, Active Directory, security protocols, compliance, IT governance, cybersecurity

Data & Integration – SQL, APIs, ERP integration tools, data integrity, process alignment

Collaboration & Support – User support, stakeholder management, technical support, process documentation, training materials, IT policies, data protection, field teams support, site offices support

PROJECTS

ERP Platform Enhancement and Reporting Suite

- Enhanced the core **ERP platform** by implementing new workflows for procurement cycles, impacting an 8-person procurement team.
- Developed a suite of **Power BI dashboards** to provide real-time visibility into job costing and production reporting for departmental leadership.
- Integrated the ERP system with external vendor portals via **APIs** to streamline data exchange and improve operational efficiency.

Business Process Automation and BI Dashboarding

- Automated manual data entry tasks for time-tracking systems using **Python scripting**, reducing data input errors by approximately 15%.
- Built and deployed interactive **dashboards in Power BI** to visualize key performance indicators for finance and logistics departments.
- Collaborated with business analysts to gather requirements and ensure data integrity across interconnected operational systems.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin

Feb 2026

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
