PROFESSIONAL EXPERIENCE

Software Engineer — HCL Technologies, Chennai, India

Sep 2021 – Jan 2025

- Managed a global cloud-based platform, providing high-quality technical support and ensuring service level agreements were met for enterprise customers.
- Deployed and optimized **cloud-based infrastructure** on **Microsoft Azure** and **AWS**, focusing on performance, scalability, and security across production environments.
- Built and maintained **CI/CD pipelines** using modern tooling, enabling efficient software delivery and reducing deployment times by approximately **30%**.
- Monitored system performance, availability, and capacity using tools like **Splunk** and **CloudWatch**, proactively identifying and resolving potential issues to improve resilience.
- Acted as an escalation point for complex technical issues, collaborating with cross-functional teams to drive timely and effective resolutions within an ITIL framework.
- Implemented infrastructure as code using **Terraform** for managing cloud resources, ensuring consistent and repeatable deployments across development, staging, and production environments.
- Supported incident, problem, and change management processes, contributing to continuous improvement through automation and operational best practices.

SKILLS

Cloud Platforms – Microsoft Azure, AWS, EC2, S3, Lambda, CloudWatch

CI/CD & DevOps – Jenkins, Azure DevOps, Terraform, Docker, Kubernetes, Git

Monitoring & Observability – Splunk, Dynatrace, Prometheus, Grafana

Operating Systems – Linux, Shell Scripting

Programming Languages – Java, Python, Spring Boot, SQL

ITSM Frameworks – ITIL, Incident Management, Problem Management, Change Management

PROJECTS

Cloud Infrastructure Automation with Terraform

- Developed and maintained **Terraform** modules to provision and manage **AWS** infrastructure, including EC2 instances, S3 buckets, and VPC configurations, for a large-scale enterprise application.
- Automated the deployment of microservices using **Docker** containers orchestrated by **Kubernetes**, reducing manual deployment effort by **40%** and improving consistency.
- Integrated CI/CD pipelines with infrastructure-as-code deployments, enabling developers to push code changes and have them automatically deployed to cloud environments.

Production Support Dashboard Enhancement

- Enhanced an internal **payments operations dashboard** by developing **Python** scripts to ingest and process real-time transaction data from multiple sources.
- Implemented new alerting mechanisms using **Splunk** queries to proactively notify operations teams of critical failures or performance degradation, decreasing incident response time by **25%**.
- Collaborated with business analysts to gather requirements for new dashboard features, improving visibility into transaction flows and reconciliation workflows.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin

Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India

2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
