PROFESSIONAL EXPERIENCE

Software Engineer — HCL Technologies, Chennai, India

Sep 2021 – Jan 2025

- Developed and maintained **Power BI dashboards**, transforming raw data into actionable insights for business stakeholders, presenting trends and KPIs to aid forecasting.
- Performed **data cleansing and validation** on large datasets using **SQL** and **advanced Excel**, ensuring accuracy and consistency for reporting cycles.
- Collaborated with cross-functional teams to define and align reporting requirements with central reporting structures and business goals, facilitating data-driven decision-making.
- Extracted, transformed, and loaded data from multiple sources into a centralised data warehouse, supporting strategic data management projects and the development of new analytical models.
- Designed and implemented **data mapping** strategies for new reporting initiatives, ensuring seamless integration with existing systems and adherence to data governance principles.
- Contributed to **project management** efforts by documenting processes, tracking progress, and coordinating with stakeholders to ensure timely delivery of data analytics deliverables.
- Analyzed datasets to identify key trends and performance indicators, developing **visualisations** that clearly communicated complex information to non-technical audiences.

SKILLS

Data Analysis & BI – Power BI, Tableau, DAX, Power Query, Data Modelling, Business Intelligence, Statistical Analysis, Exploratory Data Analysis, A/B Testing, Time-Series Analysis

Programming & Scripting – Python, R, SQL, pandas, NumPy, scikit-learn

Database & Data Warehousing – PostgreSQL, MySQL, Oracle, Data Warehousing, ETL

Project & Change Management – Lean, Project Management, Change Management Methodologies, Stakeholder Engagement, Agile, Scrum

Cloud & Big Data Concepts – AWS, Docker, Hadoop, Spark

PROJECTS

Interactive Sales Performance Dashboard (MSc Project)

- Developed an interactive **Power BI dashboard** to visualize sales performance metrics, including revenue, conversion rates, and pipeline status for a simulated enterprise sales team.
- Engineered data models within Power BI using **DAX** and **Power Query** to consolidate data from disparate sources, ensuring a single source of truth for reporting.
- Presented key findings and trends identified through the dashboard to project stakeholders, facilitating strategic discussions on sales forecasting and resource allocation.

Customer Transaction Analysis Pipeline (HCL Technologies)

- Built automated **Python scripts** using **pandas** to extract and process customer transaction data from relational databases, preparing it for downstream analysis and reporting.
- Implemented data validation checks within the pipeline to ensure the accuracy and consistency of financial transaction records, reducing data error rates by approximately 15%.
- Collaborated with operations teams to refine data extraction logic based on evolving business requirements and the need for enhanced **transaction monitoring** capabilities.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin

Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India

2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
