PROFESSIONAL EXPERIENCE

Software Engineer — HCL Technologies, Chennai, India

Sep 2021 – Jan 2025

- Designed and implemented **Power BI** dashboards and interactive reports for business stakeholders, translating complex data into actionable insights.
- Developed **DAX measures** and optimized **Power Query** transformations to build robust data models and ensure data accuracy for analytical reports.
- Executed **SQL** queries and performed data validation across multiple database systems, including **PostgreSQL** and **MySQL**, to support analytical requirements.
- Created automated data pipelines and ETL processes using **Python** and **pandas** to ingest, clean, and transform data from disparate sources for analysis.
- Performed statistical analysis and hypothesis testing using **R** and **scikit-learn** on coursework datasets to identify trends and inform business decisions.
- Developed and maintained REST APIs using **Java Spring Boot** for cross-service data exchange, ensuring efficient communication between internal systems.
- Managed production environments for enterprise applications, performing incident response and SLA management using tools like **Splunk** and **Dynatrace**.

SKILLS

Business Intelligence – Power BI, Tableau, DAX, Power Query, Data Modelling, BI Theory, Operational Reporting

Data Analysis & Science – Python, pandas, NumPy, scikit-learn, R, RStudio, Statistical Analysis, Hypothesis Testing, A/B Testing, Time-Series Analysis, Machine Learning Fundamentals

Databases & Data Warehousing – SQL, PostgreSQL, MySQL, Oracle, Data Warehousing, ETL

Backend Development – Java, Spring Boot, REST APIs, Python, Flask, FastAPI

Cloud & DevOps – AWS (EC2, S3, Lambda, CloudWatch), Docker, Jenkins, Git, Linux, Shell Scripting

Enterprise Systems – ERP Integration Support, Change Management, Jira, Confluence

PROJECTS

Interactive Sales Performance Dashboard

- Developed an interactive **Power BI** dashboard to visualize sales performance metrics, enabling the sales team to track key performance indicators in real-time.
- Engineered complex **DAX measures** to calculate rolling averages, year-over-year growth, and segment-specific performance, enhancing analytical depth.
- Integrated data from multiple sources using **Power Query** and established a clear data model to ensure consistency and accuracy across all report visuals.

Customer Transaction Analysis Pipeline

- Built a **Python**-based ETL pipeline to extract and transform customer transaction data from various systems, preparing it for analytical processing.
- Applied **pandas** and **SQL** to clean, aggregate, and enrich transaction logs, identifying patterns in customer behavior and spending habits.
- Designed and deployed the data processing workflow on **AWS Lambda**, handling approximately 1,500 transactions per hour with automated error logging via **CloudWatch**.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin

Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India

2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
