PROFESSIONAL EXPERIENCE

Software Engineer — HCL Technologies, Chennai, India

Sep 2021 – Jan 2025

- Provided first-level technical support for customer inquiries via **email** and **chat**, diagnosing and resolving issues related to Greenhouse product functionality and configuration.
- Investigated and troubleshooted complex customer problems, escalating to internal teams when necessary and documenting resolution steps for knowledge base contribution.
- Guided customers through product setup, feature adoption, and integration best practices, ensuring successful implementation and maximizing their use of the platform.
- Explained product capabilities and limitations clearly to customers, managing expectations for future releases and fostering confidence in the Greenhouse platform.
- Identified recurring customer challenges and synthesized findings into actionable recommendations for **product**, **process**, and **documentation** improvements.
- Assisted in developing and updating internal and external documentation, contributing to a centralized knowledge base for technical support and customer self-service.
- Managed multiple support tickets simultaneously in a **Zendesk** environment, prioritizing based on urgency and customer impact while maintaining clear communication.

SKILLS

Customer Support Tools – Zendesk, Email, Chat, Video Calls

Technical Skills – Troubleshooting, Technical Architecture Explanation, Product Configuration, Integration Guidance

Soft Skills – Problem Solving, Analytical Skills, Written Communication, Verbal Communication, Adaptability, Critical Thinking

PROJECTS

Customer Onboarding Playbook for Enterprise SaaS

- Developed a comprehensive onboarding guide and interactive walkthrough for new enterprise customers, detailing setup procedures and feature utilization for a SaaS platform.
- Collaborated with customer success managers to gather feedback on initial user experiences, identifying key friction points and refining the onboarding content to address them.
- Created short video tutorials and example configurations that reduced average customer time-to-first-use by **30%**.

Internal Knowledge Base Enhancement for Support Team

- Engineered a new tagging and categorization system for an internal technical support knowledge base, improving searchability and reducing average ticket resolution time by **15%**.
- Authored and updated over 50 articles on common product issues and advanced troubleshooting techniques, ensuring consistency and accuracy in technical guidance.
- Trained 5 new support agents on effective knowledge base utilization for faster issue diagnosis and consistent customer responses.
