PROFESSIONAL EXPERIENCE

Software Engineer — HCL Technologies, Chennai, India

Sep 2021 – Jan 2025

- Developed and maintained **Java Spring Boot** REST APIs for internal enterprise systems, handling approximately **1,500 requests per minute** during peak hours.
- Engineered **Hibernate** ORM mappings and optimized SQL queries for a core data persistence layer, improving data retrieval efficiency by an estimated **20%**.
- Designed and implemented complex object-oriented solutions in **Java** using **JUnit** and **Mockito** for robust unit testing, ensuring code coverage above **85%**.
- Provided technical support and guidance to cross-functional teams within the Engineering Competence Centre, resolving complex engineering challenges and ensuring project alignment.
- Collaborated with business stakeholders to gather detailed technical specifications for new feature development, translating requirements into actionable technical designs.
- Managed and executed code reviews for junior engineers, ensuring adherence to coding standards and promoting best practices within the team.
- Containerised microservices using **Docker** and managed deployments on **AWS EC2** instances, contributing to improved application portability and scalability.

SKILLS

Programming Languages – Java, Python, SQL, English

Frameworks & Libraries – Spring Boot, Hibernate, JUnit, Mockito, pandas, NumPy, scikit-learn, Flask, FastAPI

Cloud Platforms – AWS (EC2, S3, Lambda, CloudWatch)

Databases – PostgreSQL, MySQL, Oracle

Tools & Technologies – Docker, Jenkins, Git, Jira, Confluence, Splunk, Dynatrace, Linux, Shell Scripting, AutoCAD, Microsoft Excel

Methodologies – Agile, Scrum

PROJECTS

Enterprise Java Application Modernization (HCL Technologies)

- Re-architected legacy Java components into a microservices-based system using **Spring Boot** and **Hibernate**, enhancing system modularity and maintainability.
- Developed RESTful APIs to facilitate data exchange between newly created services and existing enterprise applications, supporting approximately **500 concurrent users**.
- Implemented comprehensive unit and integration tests using **JUnit** and **Mockito**, achieving over **90% code coverage** and reducing post-deployment defects by **30%**.

Automated Reporting System for Financial Operations (HCL Technologies)

- Developed Python scripts to automate the generation of daily operational reports from PostgreSQL and Oracle databases, consolidating data from multiple sources.
- Designed and implemented data extraction and transformation (ETL) logic using **pandas** and SQL, ensuring data accuracy for over **2,000 transaction records** processed daily.
- Integrated the reporting system with Jenkins for scheduled execution, providing timely updates to operations teams and reducing manual reporting effort by **8 hours per week**.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin

Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India

2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
