PROFESSIONAL EXPERIENCE

Software Engineer — HCL Technologies, Chennai, India

Sep 2021 – Jan 2025

- Collaborated with Product Owners during sprint refinement to define **Acceptance Criteria (AC)** and identify edge cases for upcoming features, ensuring testability before development began.
- Developed and maintained automated test suites using **Cypress (JavaScript)**, integrating them into the **CI/CD pipeline** to provide rapid feedback on code changes.
- Performed **API testing** using **Postman** and executed **database validation** queries to confirm data integrity across interconnected SaaS services.
- Mentored junior QA engineers on best practices for test automation and the importance of a 'Quality is everyone's responsibility' mindset within the Agile squad.
- Implemented regression tests for critical user flows on both **Web (Cypress)** and **Mobile (Maestro)** platforms, reducing critical bugs found in UAT by approximately **30%**.
- Contributed to **Scrum ceremonies**, including sprint planning and daily stand-ups, providing accurate test effort estimations and identifying potential quality risks.
- Managed test execution across multiple environments using **Git** and **Jenkins**, ensuring consistent and reliable test results before each release cycle.

SKILLS

Testing Frameworks – Cypress, Maestro, Postman

Programming Languages – JavaScript, SQL, Python, Java

Development Tools – Git, Jenkins, Docker, Azure DevOps

Methodologies – Agile, Scrum, Shift-Left Testing

Databases – PostgreSQL, MySQL, Oracle

Other – API Testing, Database Validation, CI/CD, SaaS

PROJECTS

Web Application Test Automation Framework

- Designed and built a scalable automated testing framework for a customer-facing web application using **Cypress** and **JavaScript**, covering core user journeys.
- Integrated the Cypress test suite into the **Jenkins CI/CD pipeline**, enabling automated test runs on every commit and reducing manual regression testing time by an estimated **60%**.
- Implemented end-to-end tests that validated data persistence through direct **SQL queries** against the development database, ensuring data integrity.

Mobile App E2E Validation Suite

- Developed automated end-to-end test scripts for a mobile application using **Maestro**, focusing on critical user flows and device interactions.
- Collaborated with the development team to integrate mobile test execution into their build process, providing immediate feedback on integration issues.
- Performed manual exploratory testing on new features to identify usability issues and edge cases not covered by automated scripts.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin

Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India

2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
