PROFESSIONAL EXPERIENCE

Software Engineer — HCL Technologies, Chennai, India

Sep 2021 – Jan 2025

- Designed and deployed **AWS** infrastructure using **Terraform**, ensuring high availability and disaster recovery for production services.
- Implemented **CI/CD pipelines** using **Jenkins** and **Git**, automating build, test, and deployment processes to accelerate release cycles by **30%**.
- Developed **Python** automation scripts to streamline routine operational tasks, reducing manual intervention time by approximately **15 hours per week**.
- Managed and optimized **Kubernetes** clusters and **Docker Compose** environments, enhancing container orchestration efficiency and resource utilization.
- Configured and maintained **Prometheus** and **Grafana** for system monitoring and alerting, enabling proactive identification and resolution of potential issues.
- Collaborated with development teams to integrate security best practices into the **CI/CD pipeline**, including vulnerability scanning and access control.
- Automated infrastructure provisioning and configuration management using **Ansible**, creating reusable templates that reduced deployment time for new environments by **40%**.

SKILLS

Cloud Platforms – AWS, GCP, Infrastructure as Code, Terraform, Kubernetes, Docker Compose

CI/CD Tools – Jenkins, BitBucket, Gitlab, GitHub Actions, ArgoCD, FluxCD, Git

Configuration Management – Ansible, Terraform, Shell scripting, Infrastructure automation

Monitoring & Logging – Prometheus, Grafana, Logi, Alloy, Application performance monitoring tools

General – Agile methodology, Code versioning tools, Problem solving, Debugging skills

PROJECTS

Cloud Infrastructure Automation with Terraform and Kubernetes

- Designed and implemented a scalable cloud infrastructure on **AWS** using **Terraform** to manage resources as code, supporting **50+ microservices**.
- Deployed and managed containerized applications using **Kubernetes**, configuring deployments, services, and ingress controllers for optimal performance and availability.
- Established automated deployment pipelines with **Jenkins** and **ArgoCD**, enabling continuous integration and delivery of new application versions with **minimal downtime**.

CI/CD Pipeline Enhancement for Automated Deployments

- Developed and maintained robust **CI/CD pipelines** using **GitHub Actions**, automating build, testing, and deployment stages for Python and Java applications.
- Integrated automated security scanning tools into the pipeline, identifying and remediating **15+ critical vulnerabilities** before production deployment.
- Implemented infrastructure templating with **Ansible**, standardizing configurations and reducing the time to provision new staging environments by **50%**.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin

Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India

2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
