PROFESSIONAL EXPERIENCE

Software Engineer — HCL Technologies, Chennai, India

Sep 2021 – Jan 2025

- Managed the deployment and configuration of **SASE tools** like Netskope, ensuring seamless integration with existing cloud infrastructure and on-premises systems.
- Resolved complex, real-time issues across **EDR solutions** such as CrowdStrike, minimizing downtime and maintaining optimal security posture for over 5,000 endpoints.
- Developed Python scripts to automate the deployment of security agents and troubleshoot configuration drift, reducing manual intervention by approximately 40% for routine tasks.
- Collaborated with incident response teams to integrate new detection rules into the **SIEM platform**, enhancing threat visibility and reducing false positive rates by 15%.
- Created comprehensive documentation for security tool configurations and troubleshooting procedures, standardizing knowledge transfer and supporting a team of 3 junior engineers.
- Led proof-of-concept projects to evaluate emerging security technologies, including application allowlisting tools, assessing their efficacy against the latest threat landscape.
- Containerized security tooling with **Docker** for consistent deployment across development and production environments on **AWS EC2** instances.

SKILLS

Security Tools – SASE (Netskope, Zscaler), EDR (CrowdStrike, SentinelOne), SIEM Management, Application Allowlisting, Endpoint Privilege Management, Email Security

Scripting & Automation – Python, PowerShell, Bash

Cloud Platforms – AWS (EC2, S3, Lambda, CloudWatch), Azure, GCP

Infrastructure & Networking – Docker, Kubernetes, Network Protocols, Linux

Security Frameworks – MITRE ATT&CK, NIST, CIS

Development Practices – CI/CD, Git, Code Reviews, REST APIs

PROJECTS

Enterprise Endpoint Security Hardening

- Implemented and configured **CrowdStrike EDR** across a fleet of 3,000+ enterprise endpoints, establishing real-time threat detection and response capabilities.
- Developed **Python automation scripts** to streamline the onboarding process for new devices, ensuring consistent security agent deployment and policy adherence.
- Generated detailed reports on endpoint security status and detected threats, providing actionable insights to the vulnerability management team for remediation planning.

SIEM Integration for Threat Intelligence

- Integrated multiple security tool logs (firewall, proxy, EDR) into a centralized **SIEM platform** for unified monitoring and analysis.
- Authored custom detection rules within the SIEM to identify suspicious patterns and potential security incidents, improving detection accuracy by approximately 20%.
- Collaborated with the security operations center (SOC) to refine alert thresholds and reduce alert fatigue, ensuring critical events were prioritized.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin

Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India

2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
