PROFESSIONAL EXPERIENCE

Software Engineer — HCL Technologies, Chennai, India

Sep 2021 – Jan 2025

- Managed incoming technical support requests via phone and ticketing system, resolving approximately 65% at first contact.
- Performed Level 2 diagnostics including **log analysis** using **Splunk** and **remote access tools** to identify root causes for system malfunctions.
- Coordinated with field engineers for on-site issue resolution, remotely supporting their diagnostics and configuration tasks.
- Monitored operational systems proactively, assisting with scheduled **firmware rollouts** and identifying potential issues before they impacted service.
- Documented technical solutions and troubleshooting steps for the internal knowledge base, improving resolution times for common issues by an estimated 15%.
- Produced weekly reports on ticket volume, resolution times, and system performance trends for management review.
- Supported the deployment and configuration of new cash handling systems across multiple client sites, ensuring successful integration with existing infrastructure.

SKILLS

Operating Systems – Windows, Linux

Networking – TCP/IP, Remote Access Tools

Support Tools – Ticketing Systems, Knowledge Base Management, Jira, Confluence

Monitoring & Analysis – Log Analysis, System Monitoring, Splunk, Dynatrace

Hardware Support – Firmware Updates, Configuration Management

Customer Service – First Contact Resolution, Technical Communication, Empathy

PROJECTS

Enterprise Application Support & Automation (HCL Technologies)

- Provided production support for a suite of **Java** and **.NET** enterprise applications, managing SLAs and responding to P1/P2 incidents using **Splunk** and **Dynatrace**.
- Developed **Python** scripts to automate routine data validation tasks and scheduled reporting, reducing manual effort by approximately 10 hours per week for the operations team.
- Collaborated with business analysts to triage issues, gather requirements for bug fixes, and support User Acceptance Testing (UAT) cycles on the financial operations dashboard.

ITSM Process Improvement Initiative (HCL Technologies)

- Enhanced the internal knowledge base by documenting troubleshooting procedures for common system errors and new feature deployments, creating standardized guides for the support team.
- Assisted in the change management process for system configuration updates, coordinating UAT and providing post-go-live support across interconnected enterprise systems.
- Generated monthly reports on system performance and incident trends, identifying areas for proactive maintenance and contributing to a reduction in recurring issues.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin

Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India

2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
