PROFESSIONAL EXPERIENCE

Software Engineer — HCL Technologies, Chennai, India

Sep 2021 – Jan 2025

- Developed and maintained **Revit models** for mechanical and electrical systems on a regional infrastructure delivery programme, ensuring adherence to project BIM standards.
- Assisted in the production of **MEP drawings** and documentation, coordinating model revisions with design team feedback for live projects.
- Collaborated with **architects and project engineers** to integrate MEP designs into comprehensive BIM models, facilitating clearer construction pathways.
- Managed time effectively to meet project deadlines for model delivery, adapting to evolving project requirements and design changes.
- Ensured accuracy and consistency of **3D BIM models** in line with specific project standards and client specifications.
- Participated in team meetings to discuss project progress, identify potential clashes, and resolve coordination issues with other disciplines.
- Gained hands-on experience with **Dynamo scripting** to automate repetitive tasks within Revit, enhancing modeling efficiency by an estimated 15%.

SKILLS

BIM Software – Autodesk Revit, Dynamo

MEP Systems – Mechanical, Electrical, Plumbing

Core Skills – 3D Modeling, Technical Drawing, Documentation, Collaboration, Time Management, Attention to Detail

Project Management – BIM Coordination, Standards Adherence, Deadline Management

Technologies – Virtual Reality (VR)

PROJECTS

MEP Design Coordination Model

- Developed detailed **Revit models** for HVAC and electrical distribution systems for a commercial building project, focusing on clash detection and integration.
- Generated coordinated 2D drawings and reports from the 3D model for review by senior engineers and project managers.
- Ensured all model elements conformed to project-specific BIM execution plans and industry best practices.

Automated Revit Detailing Workflow

- Explored and implemented **Dynamo scripts** to automate the creation of standard MEP details and annotations within Revit, reducing manual effort.
- Documented the scripting process and created a guide for junior modelers to adopt the automated workflows for faster project delivery.
- Assisted in exploring **Virtual Reality (VR)** applications for immersive model review sessions with project stakeholders.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin

Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India

2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
