PROFESSIONAL EXPERIENCE

Software Engineer — HCL Technologies, Chennai, India

Sep 2021 – Jan 2025

- Architected and developed **TypeScript** microservices using **Node.js** and **Express.js** for core application features, adhering to RESTful API principles.
- Designed and implemented a **React**-based user interface with **Styled Components** for an on-board entertainment system, enhancing user engagement across 12 airline client applications.
- Managed production support for enterprise applications on **AWS** (EC2, S3, CloudWatch), responding to P1/P2 incidents and maintaining critical service availability.
- Contributed to architectural discussions for greenfield projects, evaluating technology selections and proposing scalable solutions leveraging modern design patterns.
- Reviewed pull requests for a team of 4 engineers, providing constructive feedback on code quality, performance, and adherence to best practices.
- Assisted the DevOps team in writing and maintaining **CI/CD pipelines** using **Jenkins**, automating build, test, and deployment processes for containerized applications.
- Containerized backend services using **Docker** and deployed them via **Docker Compose**, improving environment consistency and simplifying development workflows.

SKILLS

Frontend – TypeScript, React, Styled Components, CSS3, HTML5, LESS, SASS

Backend – Node.js, Express.js, RESTful Web Services, Microservices Architecture

Databases – SQL, NoSQL, MongoDB, PostgreSQL

Cloud & DevOps – AWS (S3, EC2), Docker, Docker Compose, Jenkins, Git, GitHub Actions

AI & LLM – AI-assisted development tools, Prompt Design, OpenAI API, Anthropic API, LLM APIs

Development Practices – Agile/Scrum, Unit Testing (Jest), Pull Request Review, Documentation, Linux Administration

Observability & Tooling – Elastic Search, Kibana, Jira, Confluence

PROJECTS

Inflight Entertainment Web Application (HCL Technologies)

- Developed a **React** frontend with **TypeScript** for a new inflight entertainment platform, integrating with backend **RESTful APIs** and **Styled Components** for a cohesive user experience.
- Implemented a **Node.js** backend service using **Express.js** to manage content delivery and user preferences, processing approximately 2,800 requests per hour during peak flight times.
- Containerized the application using **Docker** and configured **Docker Compose** for local development, reducing setup time for new team members by 40%.

Customer Onboarding Portal (HCL Technologies)

- Built a **TypeScript**-based portal for enterprise customers to manage their inflight system configurations, interfacing with various third-party APIs for data synchronization.
- Designed and implemented the data models and queries for a **PostgreSQL** database to store customer-specific settings and usage analytics.
- Collaborated with customer success teams to gather requirements and integrate feedback, ensuring the portal met critical client operational needs.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin

Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India

2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
